Capitalism. W. 4 (weeks 5-8) *L. T. is cancelled*  
Sociology and Political Economy of East Asian  
Capitalism. M. 10 (weeks 1-4) *E. T.*

### M. PHIL. (one-year course) IN MANAGEMENT STUDIES

- p. 137 DR C. PITELIS AND DR A. COSH (*not* DR C. PITELIS)  
Industrial Organisation. (*not* Industrial Economics.)  
DR F. VANDERBECK  
Topics in Management Science. *is cancelled*  
DR R. G. BAKER  
Financial Statement Analysis. *is cancelled*  
DR R. CHATERJEE  
Topics in Accounting.  
VARIOUS TEACHERS (*not* DR G. HODGSON)  
Research Methodology.

### GEOGRAPHY

#### Part IA

#### Paper 1. Geographical Ideas and Methods

- p. 138 MR P. STICKLER  
Cartographic Skills (One lecture and one practical)

#### Part IB

#### Paper 11. Landforms and Environmental Change

- p. 140 DR I. C. WILLIS  
(Two lectures)

#### Part II

#### Paper 3. A Prescribed Topic or Topics in Geography I: Urban Problems, Planning and Policy

- DR D. E. KEEBLE AND DR S. E. OWENS (*not* DR S. E. OWENS)  
Urban Transport Workshop (Two hours)

### SCOTT POLAR RESEARCH INSTITUTE

All lectures are at 8.00 p.m. in the Scott Polar Research Institute, Lensfield Road. They are open to all who are interested, and seats will be reserved, on request, for "Friends of the Institute".

- 30 Jan. MARIA PIA CASARINI - WADHAMS, Scott Polar  
Research Institute. Polar Centenary Lecture  
Series No. 2.  
*Farthest North. The Duke of Abruzzi's North Pole  
Expedition, 1899-1900.*  
Luigi Amedeo di Savoia-Aosta is best known as  
pioneer of the famous Abruzzi Ridge on K2  
and first to climb Mount St. Elias, but on his  
one polar expedition he also bettered Nansen's  
*Fram* record achieving 86°34' North. This  
lecture celebrates the expedition's 100<sup>th</sup>  
anniversary.
- 13 Feb. JOHN SMELLIE, Senior Vulcanologist, British  
Antarctic Survey.  
*Ice and fire - desolation and abundance.*  
In 1977 the speaker led an expedition to the South  
Sandwich Islands. These seldom visited bleak  
and desolate volcanic islands hold significant  
clues to crustal evolution. Using photographs  
taken by himself and Peter Buckrout, the talk  
will focus on the initial scientific results as well  
as showing stunning images of the dramatic  
landscape and the wildlife.
- 27 Feb. TIM AND PAULINE CARR  
*Antarctic oasis: under the spell of South Georgia.*  
The speakers have been South Georgia's only full-  
time inhabitants since moving there six years  
ago after a lifetime of ocean cruising. In this  
talk the speakers will describe their unique way  
of life and their enduring fascination with the  
island, its wildlife and history.
- 13 Mar. OLGA TOUTOUBALINA, Scott Polar Research  
Institute.  
*Arctic Siberia: wilderness and devastation. The beauty  
and horrors of life in Noril'sk.*  
This illustrated lecture will provide an insight into life  
in one of the coldest cities in the world, well  
known in the West for the great environmental  
problems associated with its copper and nickel  
industry but equally notable for the natural  
beauty of much of its surrounding region. The  
talk will include an account of the speaker's  
research into the potential of satellite images to  
monitor such extreme environments.

### MATHEMATICS

#### Part IA

#### *Mathematics with Physics Option:*

- DR J. R. BATLEY (*not* DR V. GIBSON) p. 146  
Oscillations and Waves (first twelve lectures)  
PROF. M. S. LONGAIR (*not* DR D. A. GREEN)  
Fields, Relativity and Quantum Mechanics (last twelve  
lectures)

#### Part III

DEPARTMENT OF PURE MATHEMATICS AND MATHEMATICAL  
STATISTICS

#### *Additional Course*

- DR B. TOTARO p. 149  
Algebraic Geometry. M. W. F. 9  
*DPMMS Seminar Room 1*

## Additions and Corrections

### IT/COMPUTER TRAINING COURSES (LENT TERM 1999)

The Computing Service offers the following IT courses which are free for current students and staff of the University only. Most courses start at 2.15 p.m. and end by 5 p.m. and are held at the new Museums Site, but there are exceptions so please check times and venues when registering. Some are entirely practical, while others take the form of a lecture and demonstration followed by a practical session, and a few consist of a lecture only. For all practical sessions which have a limited number of places, priority will be given to those who have booked in advance and arrive in good time. Self-paced 'teach-yourself' modules are also available (see below). A printed timetable giving times and locations, and a booklet containing course descriptions may be obtained from Computing Service Reception; this information is also provided on the World Wide Web (URL <http://www.cam.ac.uk/CS/Courses/>). The next programme will be in the Easter Term, starting in April 1999. Note that the Computing Service also provides documentation on many topics in the form of handouts, information sheets and leaflets (see Web page <http://www.cam.ac.uk/CS/Docs/> or request a copy of handout H9 *Publications Available*).

It is essential to register in one of the following ways (in order of preference):

- Complete a form on the World Wide Web (<http://www.cam.ac.uk/CS/Courses/>)
- Send an email message to [course-admin@ucs.cam.ac.uk](mailto:course-admin@ucs.cam.ac.uk)
- In person at Computing Service Reception, New Museum Site, Pembroke Street
- Telephone (3)34662

Please note that only electronic (Web and email) bookings will be confirmed, and reminders only sent if a valid email address is supplied. A standby system is used for oversubscribed courses. If unable to attend for any reason, please cancel booking giving as much notice as possible so that someone else may take the place, and to avoid waste of resources such as excess copies of printed notes.

\* indicates that some prior knowledge or experience is required (either basic computing skills and/or knowledge of the application as detailed in the individual course descriptions). In all cases this may be acquired by attending one or more of the introductory courses.

#### Courses on the Internet Including Electronic Mail, World Wide Web and HTML

MS M.Z.CARR	<i>Email using Mulberry on Macintoshes: Introduction*</i>	Jan. 29
MR B.LANDY	<i>Email using Pine on PCs and Unix: Introduction*</i>	Feb. 9
MR B.LANDY	<i>Pine Tricks of the Trade (Including Using Attachments)*</i>	Feb. 23
MR R.J.STIBBS	<i>World Wide Web for Beginners: Introductory Practical (mornings)</i>	Jan. 13; Jan. 29; Feb. 24
MR R.J.STIBBS	<i>World Wide Web: Further Exploration* (mornings)</i>	Feb. 1; Mar.3
MR R.J.STIBBS	<i>Writing Web Pages using HTML: Introduction*</i>	Jan. 15; Feb.4; Feb. 17 (a.m.); Mar. 12
MS H.V.SARGAN	<i>HTML in More Detail: Intermediate*</i>	Feb. 10; Mar. 17 (a.m.)
MS H.V.SARGAN	<i>Advanced HTML and Associated Technologies: Overview*</i>	Feb. 19
MS H.V.SARGAN	<i>Advanced HTML Follow-up Practical Workshop*</i>	Feb. 22 (a.m.)
MR R.J.STIBBS	<i>Graphics Manipulation for the World Wide Web*</i>	Feb. 26
MS H.V.SARGAN	<i>Designing and Managing a Web Site*</i>	Feb. 25
MR R.J.STIBBS	<i>Setting up a WWW Server on Windows NT4*</i>	Mar. 4
MR R.J.DOWLING	<i>Managing a WWW Server on a Unix System*</i>	Feb. 18

#### Courses on Using Personal Computers

### Teach-Yourself Computer Training Courses

In addition to the programme of formal courses, a selection of self-paced training material is provided for loan, or in some cases purchase, from Computing Service Reception, New Museums Site, Pembroke Street. Modules on offer at the time of going to press are listed below, but new ones are added from time to time. As well as duplicating topics covered on the taught courses, for the benefit of those who cannot attend or who prefer this method of learning, they cover other subjects and also more advanced levels. It is advisable to ring (3)324662 to check availability beforehand. A deposit of £50 is required for courses which are borrowed; this usually takes the form of a cheque which is returned when the material is brought back on time and in good, fully usable condition. In most cases it is necessary for the modules to be used on a computer with the correct version of the software installed; in some but not all cases Computing Service facilities may be used. As with most commercial software, there are licence restrictions which forbid the copying of courseware, unless expressly permitted. For information about a particular module, see the description with on the World Wide Web (<http://www.cam.ac.uk/CS/Courses/>) or the booklet which is available on request from Reception.

† Can only be used on a computer with the correct (or compatible) version of the software.

### Long Vacation Courses 1999

**Computer Science Tripos, Part II (General)**

Students intending to read for the Computer Science Tripos, Part II (General) from October 1999 are required to attend a course in Programming in Java given by Dr F. H. KING. The course will begin at 9.30 a.m. in the Hopkinson Lecture Room on the New Museums Site, Monday 19 July, and will end on Friday, 30 July. The course consists of lectures, demonstrations, and practical work.

**Computing Service.** Dr SAYER's notice.

The Computing Service intends to run several IT training courses including the use of the Internet facilities including the World Wide Web and electronic mail, personal computers, the Unix system, and popular word processing, spreadsheet and database applications in July. Note that the most popular courses are held at this time of year. In addition to the programme of formal courses, self-paced training material is provided for a loan, or in some cases purchase. Notices will be circulated as usual to all departments, colleges and libraries. Further information may be obtained from Computing Service Reception, New Museums Site, Pembroke Street, telephone 34662, email: [course-admin@ucs.cam.ac.uk](mailto:course-admin@ucs.cam.ac.uk), or World Wide Web page <http://www.cam.ac.uk/CS/Courses/>.

**Divinity**

The Faculty Board of Divinity propose the following classes:

- (1) *Elementary Greek*. Intensive course for one week beginning 26 September 1999. Intending students should apply in writing to Dr J. N. B. CARLETON-PAGET at the Divinity School, St. John's Street by 16 September 1999.
- (2) *Elementary Hebrew*. The course will begin on Monday, 5 July 1999, in the Divinity School. Intending students should apply in writing to Dr A. A. MACINTOSH at the Divinity School, St. John's Street, not later than 18 June 1999.

**Geography**

There will be no formal instruction in the Long Vacation, but the Department will be open to students who wish to use the library.

**Land Economy**

Students intending to take Part IB, and Part II of the Land Economy Tripos without having taken Part IA or Part IB respectively should note the following:

(i) Students who have not taken Part I of the Economics Tripos must undertake reading in Economics prior to starting the Land Economy Tripos. It is essential that students should obtain details on this from the Department of Land Economy before the end of the Easter Term. There will be no formal instruction in the Long Vacation.

(ii) Students who have not taken Part IA of the Law Tripos should attend the Legal System and Legal Method and Law lectures in the Long Vacation course given by the Law Faculty. A timetable of this course will be available near the beginning of the course from the Law Faculty.

**Law**

The Faculty of Law will give a course in the Long Vacation for candidates for the Law Tripos, Part IB, in the Easter Term 1999 who have not previously read law. The course will run during the week 27 September - 1 October 1999. Full details will be provided nearer the time.

**Music**

There will be no formal instruction, but lecturers in residence will give advice to undergraduates who require it.

**Natural Sciences Tripos, Part IB**

**Ecology.** FACULTY BOARD OF BIOLOGY notice.

Students intending to read Part IB Ecology will be expected to attend a two-week field course during the Long Vacation. The course will be held at Juniper Hall, Dorking, from Friday 18 June, to Friday 2 July 1999. Students will be required to make a small contribution towards the costs. Students who do not attend will be at a disadvantage. Any student needing advice in this connection should consult his or her Director of Studies and, if necessary, Dr W. AMOS, Department of Zoology, or Dr M. TESTER, Department of Plant Sciences. Further details of the arrangements will be available in the Departments of Plant Sciences and Zoology.

**Geological Sciences A and B**

There will be a field course in Geological Field Methods at Sedburgh, from 21 June to 1 July 1999 led by Dr WOODCOCK. This course is primarily for students intending to take either or both the Part IB Geological Sciences courses in 1999.

**Natural Sciences Part II**

**Biochemistry.** Professor BLUNDELL'S notice.

There will be no formal Long Vacation courses for those reading Part II Biochemistry in 1999-2000. Those who are selected for the course and wishing to undertake a laboratory placement, will be able to receive advice and assistance from the Department. All students on this course will be given advice on reading and will be expected to attend formal teaching, which will commence on Monday, 4 October 1999.

**Chemistry**

There will be no formal Long Vacation course.

**Genetics**

There will be no formal Long Vacation course. Students with little background biology will be asked to do some directed reading.

**Geological Sciences.** Professor SALJE'S notice.

The following courses will be given:

(1) A course of lectures, practical work and field work designed to be suitable for all students taking Part II (A) and Part II (B) in 1999-2000 (except those taking Mineral Sciences). The field course will take place on 18 June to 3 July in Skye.

(2) Mineral Sciences course. A course of lectures and laboratory work which is essential preparation for those students offering a Mineral Sciences project in 1999-2000. Candidates should see Dr M. T. DOVE before the end of the Full Easter Term to obtain further details.

**Materials Science and Metallurgy.** Professor WINDLE'S notice.

There will be no formal course during the long Vacation for undergraduates preparing to take Part IIA, Part IIB or Part III during the academical year 1999-2000. Instead undergraduates are strongly encouraged to obtain industrial or similar experience during the Long Vacation.

Students expecting to take the three year Part IIA in 1999-2000 will be expected to submit to the Examiners a report carried out on approved work performed during the Long Vacation in 1999. The topic of the report may be *either* a project carried out in a research, development or other approved establishment in industry or elsewhere, *or* a project carried out in the Department.

Students taking Part III in 1999-2000 will be expected to submit to the Examiners a report carried out on approved work performed *either* during the Long Vacation in 1998 *or* during the Long Vacation in 1999. The topic of the report may be *either* a project carried out in a research, development or other approved establishment in industry or elsewhere, *or* a project carried out in the Department.

Advice and assistance in finding industrial or similar experience will be available through the Department. For those Part IIA students and Part III students unable to obtain a suitable industrial placement, arrangements will be made for them to carry out a project in the Department during the Long Vacation period of residence, starting at 9.30 a.m. on Monday, 5 July 1999.

**Pathology.** Professor WYLLIE'S notice.

Candidates who intend to read Pathology for Part II of the Natural Sciences Tripos 1999-2000 should meet in the Department of Pathology on Monday, 5 July 1999, at 10 a.m. On that day arrangements will be made for candidates to meet Professor Wyllie, the organisers of the course options and supervisors of the research projects. Students are advised to begin work during the Long Vacation period of residence.

The course is organised on an option system. Students will take two options out of five (Cellular Pathology, Immunology, Microbial and Parasitic Disease, Virology and Genetic Pathology). Detailed information on these options is available in the Department of Pathology.

**Zoology.** Professor BURROW'S notice.

A Field Course will be provided for students who intend to take Part II Zoology in 1999-2000. The course will begin on Saturday, 28 August, and end on Wednesday, 8 September, and will be held on the Norfolk coast. Students will be required to make a small contribution towards the costs.

Those students who wish to take Part II Zoology, but want to do other biological work during the Long Vacation, instead of the Field Course, should discuss their plans with the Part II Advisor, Dr J. A. CLACK.

**Modern Languages**

*Courses in German and Russian for scientists and others, open without a fee to all members of the university.*

The Committee of Management of the A. J. Pressland Fund give notice that courses in German and Russian will be given during the Long Vacation, 1999. The courses are particularly intended for those who wish to acquire a reading knowledge of a language and are prepared not only to attend five lectures a week but also to do regular work in preparation for them.

All courses will take place during the four weeks from Monday, 5 July, to Friday, 30 July 1999.

All courses will be given in the *Chemical Laboratory, Lensfield Road*.
