IT/COMPUTER TRAINING COURSES (EASTER TERM AND SUMMER 2007)

The Computing Service offers the following IT training courses which are free for current staff and students of the University. Most courses start at 14.15 and end by 17.00 and are held at the New Museums Site, but there are exceptions so please check times and venues when registering. Some are entirely practical, while others take the form of a lecture and demonstration followed by a practical session, and a few consist of a lecture only. All information including times, locations and descriptions is provided on the Web (www.cam.ac.uk/cs/courses/) A printed timetable may be obtained from Computing Service Reception. Only a subset courses are held at this time of year; the next full programme after this one will be in the Michaelmas Term, starting in October 2007. In addition to instructor-led courses 'self-teach' materials are also available (see below), and the Computing Service also provides documentation on many topics in the form of handouts, information sheets and leaflets (see web page <http://www.cam.ac.uk/cs/docs/>).

It is essential to register, preferably by completing the online form at www.cam.ac.uk/cs/courses/ If this is not possible, bookings may also be made by email to course-admin@ucs.cam.ac.uk, tel. (3)34662 or in person at Computing Service Reception, New Museums Site, Pembroke Street. Bookings will be confirmed automatically and reminders sent a couple of days beforehand providing a valid email address is supplied. A standby system is used for oversubscribed courses; priority will be given to those who have booked in advance and who arrive in good time. If unable to attend for any reason, please cancel bookings giving as much notice as possible so that someone else may take the place, and to avoid waste of resources such as excess copies of printed notes.

It should be noted that, unless otherwise indicated, all courses assume basic computing skills; only those marked "Novice friendly" are suitable for those with no previous experience.

Additions and Corrections

- * indicates that some prior knowledge or experience of the topic is required, in addition to basic computing skills, as detailed in the individual course descriptions. In all cases this may be acquired by attending one or more of the introductory courses.
- ** July courses will not be bookable until June.

Special Topics

MS S. MACRAE	<i>Dragon NaturallySpeaking: Voice Recognition Software*</i>	May 11 a.m.
MR K. MORGAN	<i>PC Hardware Basics: Getting Right Inside</i>	May 17 a.m.
MR B. BECKLES	<i>Condor Distributed Task Scheduler: Submitting Jobs*</i>	July 2**

Computer Systems (PC/Windows, Macintosh, Unix/Linux)

<i>DISCONTINUED</i>	<i>Windows Introduction (Level 1)</i>	<i>See web or enquire</i>
MR A. D. STONE	<i>Macintosh: Getting to Grips with Mac OS X (Novice friendly)</i>	May 10

MR B. BECKLES	<i>Writing Better Programs: Test-First Programs and Unit Tests*</i>	July 9**
MR N. M. MACLAREN	<i>Programming: How to Help Programs Debug Themselves*</i>	June 21

Self-Teach Computer Training Courses

In addition to the programme of formal courses, a selection of self-paced training material is provided for loan, or in some cases purchase, from Computing Service Reception, New Museums Site, Pembroke Street. Modules on offer at the time of going to press are listed below, but new ones are added from time to time. As well as duplicating topics covered on the taught courses, for the benefit of those who cannot attend or who prefer this method of learning, they cover other subjects and also more advanced volumes. It is advisable to ring (3)34600 to check availability beforehand. A deposit of £50 is required for courses which are borrowed; this usually takes the form of a cheque which is returned when the material is brought back on time and in good, fully usable condition. Some courses require a specific version of the software to be installed on the computer being used; in some but not all cases Computing Service facilities may be used. As with most commercial software, there are licence restrictions which forbid copying of courseware, unless expressly permitted. There is a short description for each course on the web (www.cam.ac.uk/cs/courses/); printouts can be generated if these are not accessible.

Access 2003: 3 volumes (Win)	CDs for loan (deposit).

Long Vacation Courses 2006

Language Centre

CULP Courses in French, German, Spanish, Italian and Chinese

The Language Centre is offering Cambridge University Language Programme (CULP) intensive courses in French, German, Spanish and Italian at Basic and Intermediate level and Mandarin Chinese at Basic level during the Long Vacation Term. The CULP interactive courses offer a mix of classroom teaching and online learning through multimedia materials accessible on any PC throughout the University network. Each course consists of two hours classroom teaching plus one hour of online work each day commencing on Monday June 18th for three weeks. This year some classes will be held in the evening.

A J Pressland Fund Intensive German Reading Course for Science and Medical Students

This is an intensive German Reading course for students who are at intermediate level fluency. It will run for three weeks commencing on Monday June 18th on Tuesday, Wednesday and Friday mornings in two hour sessions. The course is open to science and medical students from the Schools of Physical and Biological Sciences, Technology and Clinical Medicine in the first instance.

Further details of these courses including timetables and registration information is available on the Language Centre website: www.langcen.cam.ac.uk
