Supplemental Charter for New Hall: Notice

The Registry has received notice from the President of New Hall that the College has received the Supplemental Charter amending the name and style of the College to ‘The President and Fellows of Murray Edwards College founded as New Hall in the University of Cambridge, to be known as Murray Edwards College’. The Charter came into effect on 14 June 2011.

The short title of the College will be Murray Edwards College and the Council has agreed to the College’s proposal that the abbreviation to be used in University publications will be *MUR*.

Office of Chancellor: Appointment of Voting Days

18 June 2011

The Vice-Chancellor gives notice in accordance with Regulation 8(b) for the Nomination and Election of the Chancellor, as amended by the Grace of the Senate of 26 May 2011 (*Reporter*, 26 May 2011, p. 861), that the period for nominations having closed at 5 p.m. on 17 June and there being more than one nomination, voting by the Senate will take place.

In addition to the candidate nominated by the Nomination Board (The Lord Sainsbury of Turville, *K*, see *Reporter*, 20 May 2011, p. 811), the Vice-Chancellor has received papers signed by fifty or more members of the Senate nominating the following persons for election to the Office of Chancellor and has received their written consent to such nomination:

Mr Abdul Arain
 Mr Brian Blessed
 Mr Michael Mansfield

In accordance with Regulation 8(b), the Vice-Chancellor now appoints **Friday, 14 October and Saturday, 15 October 2011** as the two days for voting. Members of the Senate should note that under Statute A, I, 1 governing the election of the Chancellor, voting shall be in person. Postal or proxy voting is not possible.

A notice confirming further details of the procedure for voting will be published in the *Reporter* in due course.

Election to the Board of Scrutiny: Notice

University Composition Fees: Notice

20 June 2011

In the following Notice the Council proposes an increase in fees for Home and EU postgraduate students in 2011–12. The Council also gives notice of proposals for additional increments to the fees for Home and EU postgraduate students following certain postgraduate courses in the Schools of Arts and Humanities, the Humanities and Social Sciences, and Technology from 1 September 2012. (The fees for Home and EU postgraduate students in 2012–13 will be submitted for approval in 2012.)

Increase in fees for Home and EU postgraduate students in 2011–12

The Council has agreed to propose a rate of increase of 1.9% on 2010–11 fees for Home and EU postgraduate students for the academical year 2011–12; this reflects guidance offered by the Research Councils. The Research Councils' guidance also includes an additional £200 on top of the percentage increase to support researcher development and transferable skills training. The revised fees are set out in the Schedule to this Notice.

Differential fees for certain postgraduate courses in the Schools of Arts and Humanities, the Humanities and Social Sciences, and Technology from 1 September 2012

The Councils of the Schools have recommended that the fees for Home and EU students for the postgraduate courses listed below should be increased, with effect from 1 September 2012, by the following amounts in addition to any general increase.

M.Mus. Degree, by £1,000

M.Phil. Degree

By £500, courses leading to examinations in:

American Literature	European Literature and Culture
Anglo-Saxon, Norse, and Celtic	History of Art and Architecture
Architecture	Linguistics
Asian and Middle Eastern Studies	Medieval and Renaissance Literature
Classics	Music Studies
Economic Research	Philosophy
Economics	Russian Studies
English and Applied Linguistics	Screen Media and Cultures

By £4,000, courses leading to examination in:

Advanced Chemical Engineering
Bioscience Enterprise

The fees for the following courses are proposed to be the same as the overseas fees from 1 September 2012:

Management
Technology Policy

The Council is accordingly submitting a Grace to the Regent House (Grace 1, p. 973) for the approval of revised fees for 2011–12, which result from the proposals in this Notice together with certain other necessary changes including entries for new courses announced by the General Board during the academical year 2010–11 (see *Reporter*, pp. 744 and 939). A complete table of fees for Home, EU, and Island students for 2011–12 and for overseas students for 2011–12 and 2012–13 resulting from the above changes will be published in the next edition of Statutes and Ordinances.

NOTICES BY FACULTY BOARDS, ETC.**Asian and Middle Eastern Studies Tripos, Part II, 2013: Notice**

(*Statutes and Ordinances*, p. 275)

The Faculty Board of Asian and Middle Eastern Studies give notice of the following options to be offered under Regulation 8 of Part II for the Asian and Middle Eastern Studies Tripos examination in 2013. The Faculty reserves the right to withdraw any course that is undersubscribed.

Chinese Studies

Students must choose Paper C.14 plus one of the following: C.16, 17, 18, or 20.

C.14. Advanced Chinese texts

This paper consists of a number of discrete sections linked to whatever special paper the student has chosen. Each section will consist of three unspecified Chinese texts for translation into English.

C.16. Early and imperial China

This paper will consist of ten essay questions of which candidates will be required to answer three.

C.17. Modern Chinese literature

This paper will consist of ten essay questions of which candidates will be required to answer three.

C.18. China and warfare

This paper consists of ten essay questions of which candidates will be required to answer three.

C.20. Contemporary Chinese society

This paper consists of ten essay questions of which candidates will be required to answer three.

Japanese Studies

Students must choose two papers from the following, with the proviso that K.1 cannot be combined with J.13.

J.13. Advanced Japanese texts

This paper consists of a number of discrete sections linked to the special paper the student has chosen. Each section will consist of three unspecified Japanese texts for translation into English.

J.15. Modern Japanese cultural history

The course-work that constitutes this paper assessment consists of one research essay, of between 6,000 and 7,500 words, including footnotes and excluding bibliography. Each student will develop the topic of the essay in consultation with the instructor. A one-page topic and paper outline plus a bibliography will be due during the first class session of Lent Term. Two copies of the project shall be submitted to the Programmes Administrator in the Faculty Office so as to arrive not later than the division of Full Easter Term.

J.16. Tokugawa Japan

The course-work that constitutes this paper assessment consists of one research essay, of between 6,000 and 7,500 words, including footnotes and excluding bibliography. Each student will develop the topic of the essay in consultation with the instructor. A one-page topic and paper outline plus a bibliography will be due during the first class session of Lent Term. Two copies of the project shall be submitted to the Programmes Administrator in the Faculty Office so as to arrive not later than the division of Full Easter Term.

J.19. Contemporary Japanese society

The course-work that constitutes this paper assessment consists of one research essay, of between 6,000 and 7,500 words, including footnotes and excluding bibliography. Each student will develop the topic of the essay in consultation with the instructor. A one-page topic and paper outline plus a bibliography will be due during the first class session of Lent Term. Two copies of the project shall be submitted to the Programmes Administrator in the Faculty Office so as to arrive not later than the division of Full Easter Term.

EAS.2. The East Asian region

Undergraduate students can elect to be assessed EITHER by a three-hour written examination consisting of 12 questions of which students must answer three, OR by submitting a research essay of between 6,000 and 7,500 words, including footnotes and excluding bibliography. In the latter case, each student will develop the topic of the essay in consultation with the instructor. A one-page topic and paper outline plus a bibliography will be due during the first class session of Lent Term. Two copies of the project shall be submitted to the Programmes Administrator in the Faculty Office so as to arrive not later than the division of Full Easter Term. Students are required, by the division of the Michaelmas Term, to inform the instructor of their preferred choice of assessment – either the examination or the extended research essay – so that notification can duly be made to the Board of Examinations. Once this choice has been specified, it cannot be changed.

EAS.3. The Korean wave

The course-work that constitutes the assessment for this paper consists of one research essay, of between 6,000 and 7,500 words, including footnotes but excluding bibliography. Each student will develop the topic of the essay in consultation with one of the members of staff responsible for teaching the course. A one-page outline plus a bibliography will be submitted by each student during the first session of the Lent Term. Two copies of the research essay shall be submitted to the Programmes Administrator in the Faculty Office so as to arrive not later than the division of Full Easter Term.

K.1. Readings in elementary Korean

This paper will consist of three sections. In Section A, students will be tested on their knowledge of Korean grammar. In Section B, students will be required to translate extracts from seen texts into English. In Section C, students will be required to translate extracts from unseen texts into English.

Middle Eastern Studies*MES.37. History of the pre-modern Middle East*

This paper will consist of eight essay questions, of which candidates will be required to answer three. All questions carry equal marks.

MES.38. History of the modern Middle East

This paper will consist of at least eight essay questions, of which candidates will be required to answer three. All questions carry equal marks.

MES.39. Special subject in the pre-modern Middle East: Semitic studies

The paper will contain four questions, all of which must be answered. All questions carry equal marks.

MES.40. Special subject in the contemporary Middle East: Political anthropology of Islam and the Middle East

The course-work that constitutes this paper assessment is one research essay, of between 6,000 and 7,500 words, including footnotes and excluding bibliography. Two copies of the project shall be submitted to the Programmes Administrator in the Faculty Office so as to arrive not later than the third Friday of Full Easter Term.

MES.41. Comparative Semitic linguistics

This paper will consist of eight essay questions, of which candidates will be required to answer three. All questions carry equal marks.

*X.10. Judaism II**(Paper C8 of the Theological and Religious Studies Tripos)*

(Prescribed topics: A. The Holy Land; B. The theory and practice of Jewish law)

The examination for this paper will consist of a three-hour written paper which will be divided into two sections, A and B, corresponding to the set topics. Each section will contain at least eight questions. Candidates will be required to attempt four questions, including at least one from each section.

*X.11. Judaism and philosophy**(Paper D2(c) of the Theological and Religious Studies Tripos)*

The assessment will consist of two 5,000-word essays. The first essay should focus on a close reading of a particular work, while the second should take the form of a synthetic, comparative analysis. Specific topics may be chosen by the candidate in consultation with the paper co-ordinator and in accordance with the provisions of Regulation 20 of the Theological and Religious Studies Tripos.

Geographical Tripos, Parts IB and II, 2012: Notice**PART IB**

The Faculty Board for Earth Sciences and Geography give notice that, for the examination for Part IB of the Geographical Tripos to be held in 2012, the papers to be offered will be examined as shown in the table below. In this table, the following terms are defined:

1. 'Three-hour examination': The paper will be examined by a conventional unseen three-hour examination in which candidates will be asked to attempt three questions from a choice of not less than nine questions.
2. 'Two+1 examination': The assessment of such papers will consist of a conventional two-hour examination in which candidates will be asked to attempt two questions from a choice of not less than six questions. The papers will be undivided. In addition, there will be assessed course-work to be submitted not later than the division of the Easter Term in the year of the examination. The nature of the course-work required will be determined by the University Teaching Officer responsible for the co-ordination of the course, who will provide, at the first lecture of the course, written details of the procedures which will be followed. The course-work will be equivalent to one question in quantity and for assessment in determining an overall mark for the paper.

Wittgenstein, *Tractatus logico-philosophicus*.
Candidates also taking Paper 9 may not answer questions in this paper on Wittgenstein's *Tractatus*, which will be marked with an asterisk (*). The paper will be set in such a way that there are at least ten questions not marked with an asterisk.

Paper 2. Philosophy of mind

Wittgenstein, *Philosophical investigations*.
Candidates also taking Paper 9 may not answer questions in this paper on Wittgenstein's *Philosophical investigations*, which will be marked with an asterisk (*). The paper will be set in such a way that there are at least ten questions not marked with an asterisk.

Paper 3. Ethics

Kant, *Groundwork of the metaphysics of morals*, with special reference to the following topics: the categorical imperative; duty and motive; morality and freedom.

Paper 4. European philosophy from Kant

Kant, *Critique of pure reason* to the end of the Transcendental Dialectic (A704, B732);
Hegel, *The phenomenology of spirit*, Introduction, Consciousness, Self-consciousness (paragraphs 73–230); *Hegel's logic: being part of the Encyclopaedia of the philosophical sciences*, paragraphs 1–111; *Introduction to lectures on the philosophy of history*, as far as (but not including) *The geographical basis of world history*;
Nietzsche, *On the genealogy of morality*, *The birth of tragedy*, *Beyond good and evil*.

Paper 9. Special subject specified by the Faculty Board

In 2012: Wittgenstein

Tractatus
Philosophical investigations
On certainty

Study of the following topics is also included: the development throughout Wittgenstein's work of his views on solipsism and the self, and the nature of philosophy.

Candidates taking this paper are barred from answering asterisked (*) questions in Paper 1, *Metaphysics* and in Paper 2, *Philosophy of mind*.

Paper 11. Aesthetics

Plato, *Ion*, *Symposium*, and *Republic* (Books II, III, X).
Hume, 'On the standard of taste' in *Essays, moral, political and literary*.

Examination in Advanced Computer Science for the M.Phil. Degree, 2011–12: Notice

The Degree Committee for the Faculty of Computer Science and Technology give notice that the modules available for study for the M.Phil. in Advanced Computer Science (*Statutes and Ordinances* 2010, p. 500, as amended by Notice, *Reporter*, 2010–11, p. 430) in the academical year 2011–12, and the form of the examination of each module, will be as follows:

REPORTS

Joint Report of the Council and the General Board on the establishment of a Regius Professorship of Engineering

The COUNCIL and the GENERAL BOARD beg leave to report to the University as follows:

1. In this Joint Report the Council and the General Board, with the support of the Head of the Department of Engineering and Head of the School of Technology, propose: (a) the establishment of a new Professorship of Engineering to commemorate the tenure of HRH The Duke of Edinburgh as Chancellor of the University; and (b) that the assent of Her Majesty The Queen be

sought for the Professorship to be designated a Regius Professorship.

2. The University has an outstanding record of teaching and research in the Department of Engineering, its largest Department. The Department is a world leader with an integrated approach, highly networked with industrial and academic partnerships, and plays a major role in providing solutions to environmental, social, and economic challenges. HRH The Duke of

Edinburgh has had a close and longstanding interest in engineering, both within the University, since before his election as Chancellor, and nationally. He has been a regular visitor to the Department since 1952, when he opened the Baker Building, and throughout his period as Chancellor, most recently in 2009 when he opened the Alan Reece Building for the Department's Institute of Manufacturing. He also serves as patron of the Cambridge University Engineers' Association. He played a leading role, as President of the Council of Engineering Institutions, in the formation of the Fellowship of Engineering and its transition in 1992 to the Royal Academy of Engineering of which he is the Senior Fellow. The establishment of the new Professorship would thus not only provide a senior leadership position for the Department but would recognize the Chancellor's strong association with the field.

3. The Council and the General Board consider that

5. The Council and the General Board recommend:

I. That a Professorship of Engineering be established in the University from 1 October 2011, placed in Schedule B of the Statutes, and assigned to the Department of Engineering.

II. That permission be sought from Her Majesty The Queen for the Professorship to have the title of Regius Professorship of Engineering.

III. That, subject to the approval of Her Majesty The Queen in Council, the Statutes of the University be amended as set out below and that these amendments be submitted under the Common Seal of the University to Her Majesty in Council for approval:

the establishment of the Professorship would be a particularly fitting and permanent commemoration of HRH The Duke of Edinburgh's tenure as Chancellor since 17 December 1976. In view of the University's many links with the royal family and Her Majesty The Queen's forthcoming Diamond Jubilee in 2012, the Council and Board further propose that the University should seek The Queen's permission to designate the new Professorship as a Regius Professorship. If approved, this would be the eighth such Professorship in the University, the others being the Regius Professorships of Divinity, Hebrew, Greek, Civil Law, Physic, History, and Botany.

4. The cost of the new Professorship would be met from within the existing recurrent allocation of funds to the Department of Engineering. The procedure for electing the Professor would be in accordance with Statute D, XV (as is the case for the Regius Professorships of Botany, Divinity, Greek, and Hebrew).

Report of the General Board on the introduction of a Human, Social, and Political Sciences Tripos and of a Psychological and Behavioural Sciences Tripos

The GENERAL BOARD beg leave to report to the University as follows:

1. This Report proposes the introduction of two new Triposes, in Human, Social, and Political Sciences, and in Psychological and Behavioural Sciences, with effect from October 2013. These will replace the existing Archaeology and Anthropology, and Politics, Psychology, and Sociology Triposes. The final intake for these Triposes will be in October 2012.

2. The proposals have been developed by a Social Sciences Tripos Management Committee, which the General Board established to plan the revision of the University's undergraduate provision in these areas. They have the support of: the Faculty Boards of Archaeology and Anthropology, of Politics, Psychology, Sociology, and International Studies, and of Biology; the Council of the School of the Humanities and Social Sciences; the Senior Tutors' Committee; the Committee of Management for the Natural Sciences Tripos; the Undergraduate Admissions Committee; and the Admissions Forum. They have been developed, in consultation with the institutions principally concerned, through the Management Committee, which includes representatives of the relevant institutions in the School of the Humanities and Social Sciences, together with representatives of certain institutions which participate in the Natural Sciences Tripos and of the Senior Tutors' Committee.

3. The core teaching contributions will be provided by the institutions which make up the new Faculty of Human, Social, and Political Science (established by Grace 7 of 11 May 2011) and the Department of Experimental Psychology, but there will also be contributions from other institutions including the Institute of Criminology, the Faculties of Classics, Computer Science and Technology, Education, and History, and the Department of History and Philosophy of Science. The Triposes have been structured to allow contributions from other institutions in due course and to encourage borrowing of papers between each Tripos.

4. The notion of bringing together undergraduate provision in those institutions which will make up the new Faculty, and between the Departments of Social and Developmental Psychology and of Experimental Psychology was raised in the course of the General Board's Review of the social sciences (*Reporter*, 2009–10, p. 467). Those whom that Review Committee met, before it reported in January 2009, expressed strong support for these possibilities. The General Board have been much encouraged by the constructive way in which the institutions concerned have engaged with each other and consider that this bodes well for the future health of both Triposes.

5. The new Triposes will be closely connected. One will cover the larger part of the existing Archaeology and Anthropology, and Politics, Psychology, and Sociology Triposes (both of which would be suppressed), especially the subject matter covered by the Departments of Archaeology, Biological Anthropology, Politics and International Studies, Social Anthropology, and Sociology, and will be named the *Human, Social, and Political Sciences Tripos*. The other, the *Psychological and Behavioural Sciences Tripos*, will draw on expertise in this area which is present in a number of University

institutions, most notably the Departments of Experimental Psychology and of Social and Developmental Psychology.

6. There will be a significant level of shared teaching and borrowed papers between the two Triposes, even though they will have their own distinct identities (which will be important in promoting the University's provision in these areas to potential applicants).

7. To secure links between the two Triposes there has been agreement, within the Management Committee, on the following:

- (a) The Triposes should both comprise a Part I, Part IIA, and Part IIB, each Part I and Part IIA being based on a four-paper structure.
- (b) The first year (Part I) should play a critical role in introducing students to the demands and different ways of studying at Cambridge, and, for many of them, to a number of subjects which they will not have had a chance to study previously. Each Part I should include a restricted list of papers from the other Tripos's Part I which candidates might take.
- (c) The second year (Part IIA) should offer the beginning of clearly defined disciplinary specialization, while maintaining the option of subject combinations which address students' varied interests and do not require a commitment to a single subject. Part IIA could involve single or joint subject specialization.
- (d) The goal for the final year (Part IIB) of each Tripos should be an engagement with contemporary research and thinking in each student's chosen area (or areas) of study; the format of papers in the final year should facilitate change in content to reflect research developments and staff availability.
- (e) Each Tripos should allow for appropriate subject specialization for those students who choose to pursue a particular subject (or two subjects) at Parts IIA and IIB.
- (f) Each Tripos should allow for development and for the participation of other institutions over time.
- (g) In Parts I and IIA, paper titles should be as generic as possible to allow for staff availability and expertise. Each paper in these Parts should normally comprise 32 hours of lectures (or equivalent). No Part I or Part IIA paper should normally be reliant on a single University Teaching Officer. A mechanism should be developed to give credit for each participating institution's activity.
- (h) Provision should be made for students who have taken Parts IA and IB of the Medical and Veterinary Sciences Tripos to transfer into either Tripos so as to qualify for the B.A. Degree before proceeding to clinical studies.
- (i) The introduction of the new Triposes should not require additional University teaching or make unreasonable demands on the Colleges.

8. Students may transfer into one of the Triposes or transfer to other Triposes subject to meeting the relevant regulations regarding standing. Provision in the regulations will be made, where there are good

pedagogical reasons and where timetabling permits, for borrowing from and loaning to other Triposes to preserve existing successful combinations and to permit new combinations as the fields of study develop.

Human, Social, and Political Sciences Tripos

9. This will cover the subject areas of Archaeology (including Assyriology and Egyptology), Biological Anthropology, Politics and International Studies, Social Anthropology, and Sociology, and provide opportunities for increased collaboration between these subjects. It will also allow connections to the Psychological and Behavioural Sciences Tripos and to other subjects, particularly, but not solely, based in the School of the Humanities and Social Sciences. In early consultations about the developments proposed by the General Board's original Review Committee, a common observation was that the University's existing academic staff establishment in a number of these subject areas is not on the same scale as that which is present on the establishment of cognate departments elsewhere. The proposed Tripos is intended to address this issue and to exploit the University's expertise in these areas. This programme is structured to allow engagement with allied areas of study.

10. The Tripos will, in time, be managed by the new Faculty Board of Human, Social, and Political Science that will be established from 1 August 2011. With the exception of Social and Developmental Psychology, the new Tripos will accommodate the intellectual interests of the disciplines in that new Faculty. The aim will be to provide a unified administrative framework for the provision of undergraduate teaching in these disciplines that meets the University's and the Colleges' needs, while at the same time ensuring that the identity and visibility of these disciplines is maintained and is clearly visible to prospective applicants. It will also be important to ensure that effective means of dialogue are maintained with other institutions which are outwith the new Faculty but have current or prospective interest in contributing to the new Tripos. Subject to discussion with the new Faculty Board and the Council of the School of the Humanities and Social Sciences, the General Board anticipate that responsibility for this Tripos will be formally lodged with the new Faculty Board by September 2012, by which time the Faculty Board will have had an opportunity to establish itself, whilst managing the final years of the current Triposes. In the interim, a sub-committee, including members of the Social Sciences Management Committee and constituted in consultation with the Council of the School of the Humanities and Social Sciences, will act as the operational body responsible for further developing and promoting the new Tripos, reporting to the General Board through the Management Committee.

11. In Part I, students will choose from an array of papers, giving them the opportunity to sample subjects that may be new to them. Parts IIA and IIB will be track-based and will allow students to concentrate on either one or two subjects. There will be clear intellectual progression to an advanced level in one or two disciplines while students will also be able to borrow some papers from elsewhere. All students will graduate with a specialization (indicated on their transcripts) in one or two disciplines.

12. In Part I, students will take:

- (i) three papers from: Biological Anthropology,

Social Anthropology, Sociology, Archaeology, Introduction to the cultures of Egypt and Mesopotamia, Politics, International Relations, Akkadian, and Egyptian (for which additional language provision will continue to be made);

- (ii) one further paper from the set in (i) or Introduction to psychology from Part I of the Psychological and Behavioural Sciences Tripos.

13. In Part II, students will choose one of a series of specific pathways. Initially these will be:

Archaeology (including Assyriology and Egyptology);

Biological Anthropology;

Politics and International Relations;

Social Anthropology;

Sociology;

Archaeology and Social Anthropology;

Biological Anthropology and Archaeology;

Politics and Sociology;

Social and Biological Anthropology;

Sociology and Social Anthropology.

There will be four papers in each year of Part II in each track. For the joint tracks students will take two papers in each subject. Students will not be able to switch subject track between Part IIA and Part IIB unless they switch from a joint track to one of the single subjects in that track.

For the students in a single subject track, the fourth paper in Part IIA could, subject to the proposed regulations (Annex I), be a fourth paper in that subject, or a paper in another subject within the Tripos, or an interdisciplinary research methods paper, or a paper from Part IIA of the Psychological and Behavioural Sciences Tripos. Institutions could specify one of the three subject papers as borrowed from another Tripos.

14. Each participating institution will specify its requirements for Part IIB. Each will have the discretion to allow 'single track' students to take up to a quarter of their overall workload for that year with a paper borrowed from another Part II track and will also have the discretion to make their own papers available subject to a student having taken a relevant paper in Part IIA. Institutions will fix the number of hours of University teaching for Part IIB papers according to the pedagogical purposes of individual papers and to staffing expertise and resources.

15. An important consideration in the Management Committee's deliberations has been the maintenance of the opportunity for certain students taking Archaeology papers to take papers from other Triposes which are relevant to their area of archaeological study. Such papers will only be available to students following a specified Archaeology track.

16. There will be a single board of Examiners, with a Chairman, for Part I. For Parts IIA and IIB the examining for each track will be delegated to sub-committees, chaired by a Senior Examiner, drawn from the subjects. Examining joint track students will be allocated to one of these sub-committees. The logistics of examining will be based on balancing ownership, administrative load, and equity across tracks. Separate class-lists for each of the Part IIA and IIB tracks will be published.

17. Steps will be taken both to promote the new designation and to ensure the identity and availability of all the disciplines involved. It has been assumed that this Tripos will be at least as attractive to applicants who would have previously applied to one of the current

Tripases in Archaeology and Anthropology or in Politics, Psychology, and Sociology. There may well be a positive impact on the number of applicants by the recent addition of International Relations as well as the new interdisciplinary options, and this Tripos may prove attractive to a broader range of applicants than hitherto. The historic student numbers data for the two current Triposes suggest that a first-year intake of about 175 students can be anticipated. There will be no subject-specific admissions requirements.

Psychological and Behavioural Sciences Tripos

18. Centred around the undergraduate teaching provision offered by the current Department of Social and Developmental Psychology and by the Department of Experimental Psychology, this Tripos represents an opportunity to develop a Psychology programme complementary to that offered within the Natural Sciences Tripos. It is believed that it will attract well-qualified applicants with A Levels which combine the Humanities, Natural Sciences, and Social Sciences but who have historically applied elsewhere. The proposed Tripos (see Annex II) has the strong support of both Psychology Departments, and provides an opportunity to present to prospective applicants a more coherent and clearer indication of the undergraduate routes to studying Psychology in Cambridge.

19. Part I students will take four papers including 'Introduction to psychology' and 'Psychological enquiry and methods' together with two papers from a list of optional papers (either from the Human, Social, and Political Sciences Tripos or from other Triposes).

A number of students who have chosen this Tripos will have interests for which there are relevant papers elsewhere, for example in the Natural Sciences Tripos. Catering for this can be achieved by further borrowings, properly evaluated to ensure that such borrowings make educational and resourcing sense.

20. The Part IIA year will serve as a foundation for research-led teaching in the final year, and as an opportunity for students to begin to specialize. Students will take a paper in Social psychology and either Cognitive and biological psychology or the papers for Experimental Psychology in Part IB of the Natural Sciences Tripos together with two optional papers (or, for those taking the Natural Sciences Tripos papers, one optional paper and a research project). The proposed IIA course includes many currently available papers although their content may, over time, be modified in the light of paper combinations which students typically choose.

There is potential for further development of additional papers in the second year depending on the available resources. Papers which reflect interests present elsewhere in the University and relevant to this Tripos can be envisaged in the future. These might include papers in psychiatric and clinical psychology, organizational and management psychology, linguistics, behavioural economics or criminology. The Tripos is structured to allow for this.

21. Students taking Part IIB will complete a research dissertation and a paper in Development and psychopathology together with two optional papers, or two Psychology papers from Part II of the Natural Sciences Tripos, with a dissertation and an optional paper. The Psychological and Behavioural Sciences Tripos will allow specialized provision in both Experimental Psychology and Social and Developmental

Psychology to continue, but also provides the opportunity to have Part IIB specializations which combine papers in this discipline with either papers from appropriate Part II specializations in the Human, Social, and Political Sciences Tripos or the Natural Sciences Tripos.

22. There will be three separate bodies of Examiners, for Part I, for Part IIA, and for Part IIB. For each of these there will be a Chairman of Examiners, and there might also be one or more Assistant Chairmen. The Management Committee (see paragraph 24 below) will delegate authority to the Faculty Boards or comparable authorities concerned to act as nominating bodies for the papers on offer. These institutions will be responsible for nominating a Senior Examiner and such number of Examiners and Assessors as each deems sufficient.

23. The General Board believe, as did their original Social Sciences Review Committee, that the development of this Tripos will attract to Cambridge a number of talented students who wish to study Psychology (a consistently popular A Level choice), but who currently study elsewhere. It should prove attractive to those students who currently apply, with the intention of focusing on Psychology, to either the Politics, Psychology, and Sociology Tripos or the Natural Sciences Tripos. The requirements of the Psychology professional bodies will be met by the proposed Tripos. Presenting Psychology in a context of a behavioural sciences course more broadly considered, where students can explore related disciplines, should ensure that this is a distinctive and appealing option.

The historic student numbers data for the two current Triposes suggest that a first-year intake of about 25 students can be anticipated from that source. It is estimated that at least half of the Psychology final-year students who have followed the Natural Sciences route (as opposed to those transferring from the Medical and Veterinary Sciences Tripos or elsewhere) would have been applicants to this new Tripos, and that there might be a further 20 students who would represent new applicants (who might previously have applied elsewhere). These projections suggest an admissions target of around 65 is feasible. A first-year intake of 50 would be viable. Ultimately, as is the case with the Human, Social, and Political Sciences Tripos, the numbers admitted will be dictated by the University's planning processes, the policies and capacities of the Colleges, the quality of the applicants, and the available teaching resources.

24. Overall responsibility for the Psychological and Behavioural Sciences Tripos will rest ultimately with a Management Committee of the kind already in place for the Natural Sciences Tripos. Such a Committee is appropriate given that this Tripos will involve (primarily) institutions which are constituent members of different Faculties and Schools. The Management Committee will take detailed responsibility for Part I, interacting with the Faculty Boards concerned, and for oversight of the Tripos as a whole. That Committee will have duties similar to its counterpart in the Natural Sciences Tripos in terms, for example, of: keeping under review all student-related administration for the several Parts of the Tripos; advice to the relevant bodies on the efficient use of teaching; oversight of examinations; keeping under review the regulations for the Tripos; determining teaching timetables for Part I; liaison with the Colleges and the Senior Tutors' Committee on student numbers and other matters of relevance to the Colleges; and

promoting an understanding of the Tripos within and outside the University. It is intended that this Management Committee will relieve the participating institutions of much of the administration involved in running a Tripos, in terms of, for example, timetabling and examination administration. The Management Committee will work closely with its counterpart for the Natural Sciences Tripos and those responsible for the Human, Social, and Political Sciences Tripos, to ensure maximum use of common or borrowed papers. Until the Management Committee is established, a sub-committee of the Social Sciences Tripos Management Committee, including relevant members of that Committee, will act as the operational body responsible, to the Social Sciences Tripos Management Committee and the General Board, for developing and promoting the new Tripos.

Concluding comments

25. The General Board see a range of benefits in the proposals contained in this Report. They believe that they should provide attractive undergraduate routes through Cambridge's expertise in the Human, Political, and Social Sciences, and in Psychology. Discussions with representatives of schools and colleges have confirmed the attractiveness of the proposals. Each should contribute positively to Cambridge's widening

participation strategies. The two Triposes will offer more flexible teaching provision, with increased student choice, whilst at the same time reducing the overall undergraduate teaching load falling on the institutions involved. They will aim to produce graduates who are capable of advanced further study and research, if they so choose, or are well-prepared for a range of careers. The structure of each Tripos will also promote further interdisciplinary collaboration, in both teaching and research, between the participating institutions. The proposals play to Cambridge's existing strengths in the constituent disciplines while enhancing the educational provision offered to build on the distinctive combinations available here.

26. As is the case for the Natural Sciences Tripos, prospective students will apply for admission to either Tripos as a whole, without having to commit themselves at the outset to a particular Part II programme. Discussions have taken place with the relevant intercollegiate bodies regarding the admissions process. Admissions Tutors and Directors of Studies will be fully briefed about the Triposes. Particular care will be taken, through the University's Prospectus, the website, open days, and other student recruitment and widening participation activities, to ensure that the full range of choices open to students in each Tripos are clearly explained.

27. The General Board recommend:

I. That a Human, Social, and Political Sciences Tripos and a Psychological and Behavioral Sciences Tripos be established with effect from 1 October 2013, with regulations as set out in Annexes I and II.

II. That the last admissions intakes for the Archaeology and Anthropology, and the Politics, Psychology, and Sociology Triposes be in October 2012, and that the regulations for these Triposes be rescinded in due course when commitments to students admitted in, or prior to, October 2012 have been met.

ANNEX I

HUMAN, SOCIAL, AND POLITICAL SCIENCES TRIPOS

GENERAL

1. The Human, Social, and Political Sciences Tripos shall consist of three Parts, Part I, Part IIA, and Part IIB. In Part IIA and Part IIB there shall be an examination in each of the following five subjects: Archaeology (including Assyriology and Egyptology), Biological Anthropology, Politics and International Relations, Social Anthropology, Sociology, and there shall be a joint examination in each of the following five pairs of subjects: Archaeology and Social Anthropology, Biological Anthropology and Archaeology, Politics and Sociology, Social and Biological Anthropology, Sociology and Social Anthropology. For Part I there shall be a single class-list; for Part IIA and Part IIB there shall be a separate class-list for each of the five subjects of the examination and for each joint examination.

2. The Faculty Board of Human, Social, and Political Science shall nominate a Senior Examiner and such number of Examiners to conduct the examination for Part I of the Tripos, and a Senior Examiner and such number of Examiners to conduct the examination in each subject for Part IIA and Part IIB, as they shall deem sufficient. The Faculty Board shall have power to nominate such number of Assessors as they shall deem sufficient to assist the Examiners for each Part. If required to do so, Assessors shall set papers in the subject or subjects assigned to them, shall mark the answers of the candidates in those papers, shall assess dissertations, and shall advise the Examiners on the performance of candidates in

the examination. Assessors may be summoned to meetings of the Examiners for the purpose of consultation and advice, but shall not be entitled to vote.

3. The Faculty Board may from time to time make supplementary regulations defining all or any of the subjects and specified texts of examination and may modify, alter, or withdraw such supplementary regulations as they see fit, due care being taken that sufficient notice is given of any change.

4. Before the end of the Easter Term each year the Faculty Board shall give notice of the variable subjects for the examinations to be held in the academical year next following; provided that the Board shall have the power of subsequently issuing amendments if they have due reason for doing so and if they are satisfied that no student's preparation for the examination is adversely affected. The Board shall have power when they give notice of variable subjects to announce any consequential restriction on the combination of papers that a candidate may choose to offer.

5. The questions proposed by each Examiner and Assessor shall be submitted for approval to the whole body of Examiners for Part I or to the Examiners in the particular subject for Part IIA or Part IIB.

6. Separate meetings shall be held of all the Examiners for Part I and of the five bodies of Examiners for Part IIA and Part IIB, at which the respective class-lists shall be drawn up. The five bodies of Examiners for Part IIA and Part IIB shall also draw up class-lists for the following subjects: Archaeology and Social Anthropology (the Examiners for Archaeology), Biological Anthropology and Archaeology (the Examiners for Biological Anthropology), Politics and Sociology (the Examiners for Politics and International Relations), Social and Biological Anthropology (the Examiners for Social Anthropology), and Sociology and Social Anthropology (the Examiners for Sociology). In each class-list the names of the candidates who deserve honours shall be placed in three classes, of which the second shall be divided into two divisions. The names in the first and third classes, and in each division of the second class, shall be arranged in alphabetical order. For special excellence a mark of distinction may be awarded. The class-lists for the subject Archaeology in Part IIA and Part IIB shall indicate whether a candidate has offered in the examination the Assyriology and/or Egyptology option.

7. No student shall be a candidate for more than one Part, or any Part and also for another Honours Examination in the same term.

8. No student who has been a candidate for any Part shall again be a candidate for the same Part.

9. A candidate shall not offer in any Part of the Tripos a paper that he or she has previously offered in another University examination.

PART I

10. The following may present themselves as candidates for honours in Part I:

- (a) a student who has not obtained honours in another Honours Examination, provided that he or she has kept one term and that three complete terms have not passed after the student's first term of residence;
- (b) a student who has obtained honours in another Honours Examination, in the year after so obtaining honours, provided that he or she has kept seven terms and that nine complete terms have not passed after the student's first term of residence.

11. The scheme of examination for Part I shall be as follows:

Section A

- ARC1. The development of human society
- ARC2. Archaeology in action I
- ARC3. Introduction to the cultures of Egypt and Mesopotamia
- ARC4. Akkadian language I (also serves as Paper X.1 of Part IA of the Asian and Middle Eastern Studies Tripos)
- ARC5. Egyptian language I (also serves as Paper X.2 of Part IA of the Asian and Middle Eastern Studies Tripos)
- BAN1. Humans in biological perspective
- POL1. Analysis of politics (also serves as an optional paper for Paper 5 of Part IIA of the Economics Tripos)
- POL2. International relations I (also serves as an optional paper for Paper 5 of Part IIA of the Economics Tripos)

- SOC1. Introduction to sociology: modern societies I (also serves as an optional paper for Paper 5 of Part IIA of the Economics Tripos)
- SAN1. Human societies: the comparative perspective

Section B

- PBS1. Introduction to psychology

A candidate for Part I shall be required to offer four papers as follows:

- (a) three papers from Section A;
- (b) one further paper from Section A or a paper from Section B.

A dissertation shall be accompanied by (i) a brief synopsis on a separate sheet of paper of the contents of the dissertation, and (ii) a certificate signed by the candidate stating the word count of the dissertation, that it is her or his own original work, and that it does not contain material that has already been used to any substantial extent for a comparable purpose.

20. At the discretion of the Examiners, a candidate for Part IIB may be examined *viva voce*.

TEMPORARY REGULATION

21. The examinations for the Human, Social, and Political Sciences Tripos shall be held for the first time as follows:

Part I in 2014

Part IIA in 2015

Part IIB in 2016

ANNEX II

PSYCHOLOGICAL AND BEHAVIOURAL SCIENCES TRIPOS

GENERAL

1. The Psychological and Behavioural Sciences Tripos shall consist of three Parts: Part I, Part IIA, and Part IIB.

2. No student shall be a candidate for more than one Part, or for any Part and also for another Honours Examination, in the same term.

3. No student shall be a candidate for any Part on more than one occasion.

4. No student shall offer any paper which he or she has previously offered in another University examination.

5. There shall be three separate bodies of Examiners, one for Part I, one for Part IIA, and one for Part IIB. For each of the three bodies there shall be a Chairman of Examiners, provided that the same person may be appointed Chairman for two or more bodies. For each body there might also be one or more Assistant Chairmen of Examiners. Chairmen and Assistant Chairmen of Examiners shall be appointed on the nomination of the Committee of Management of the Psychological and Behavioural Sciences Tripos;¹ nominations shall be made not later than the last day of Full Easter Term in the calendar year next preceding that in which the examination is to be held. For each of the three bodies, the Committee of Management shall, in consultation with Faculty Boards or comparable authorities, nominate such number of Examiners as they shall deem sufficient to conduct the examination. An Examiner may be appointed to examine in more than one Part of the Tripos in any year.

6. The Chairmen of Examiners shall communicate the marks of all candidates to the Registry.

7. The Committee of Management shall have power to nominate one or more Assessors to examine in any of the subjects of the Tripos. Assessors shall be required to set the paper or papers in the subjects assigned to them and to present such written reports to the Examiners as may be required. Assessors may be summoned to meetings of the Examiners for the purpose of consultation and advice, but shall not be entitled to vote.

8. There shall be a separate class-list for each Part of the Tripos. In each list the names of the successful candidates shall be arranged in three classes, of which the second shall be divided into two divisions. The names in the first and third classes, and in each division of the second class, shall be arranged in alphabetical order. In each class-list a mark of distinction shall be affixed to the names of those candidates placed in the first class whose work is of special merit.

9. Before the end of the Easter Term the Committee of Management shall give notice of the Optional Papers for the examinations to be held in the next academical year provided that the Committee shall have the power of subsequently issuing amendments if they have due reason for doing so and if they are satisfied that no student's preparation for the examination is adversely effected. The Committee shall have power when they give notice of Optional Papers to announce any consequential restriction on the combination of papers that a candidate may choose to offer.

10. The Committee of Management in consultation with a Faculty Board or comparable authority concerned shall have power to issue from time to time supplementary regulations or Notices defining or limiting all or any of the subjects of examination, and determining the scope, character, and conditions of the papers and the credit that shall be assigned to each, and to amend or withdraw such regulations and Notices; provided that due care is taken to give sufficient notice of any supplementary regulation or of any amendment of an existing supplementary regulation.

PART I

END OF THE OFFICIAL PART OF THE 'REPORTER'

REPORT OF DISCUSSION

Tuesday, 14 June 2011

A Discussion was held in the Council Room. Pro-Vice-Chancellor Professor Steve Young was presiding, with the Registry's deputy, the Senior Proctor, the Junior Proctor, a Pro-Proctor, and three other persons present.

The following Report was discussed:

Report of the Council, dated 30 May 2011, on the relocation of the University Farm from North West Cambridge to Madingley (Reporter, 2010–11, p. 893).

Professor D. J. MASKELL (Head of the Department of Veterinary Medicine) (read by Mr L. C. DANE): Mr Deputy Vice-Chancellor, the University Farm provides an essential facility for teaching farm animal husbandry and clinical skills to our students. We are required by the Royal College of Veterinary Surgeons to provide facilities to the best modern standards in terms of welfare and husbandry. The present Dairy at Park Farm meets these standards, but the calf and sheep facilities at Howe Farm and Gravel Hill Farm no longer do so. It is imperative that these are replaced urgently.

The relocation proposed in this Report will provide facilities of the required standard adjacent to the existing Dairy. This will have logistical advantages in delivering practical teaching, as all the livestock will be on one site. My colleagues have worked closely with the staff of the University Farm to design a facility which meets the future teaching needs of the Veterinary School. I commend this proposal to the Regent House.

Mr D. P. HEARN (Clare College, and Chairman of the Management Committee for the University Farm): Mr Deputy Vice-Chancellor, the proposal to relocate the Farm's buildings from North West Cambridge in order to consolidate operations at Park Farm in Madingley has involved close and constructive liaison between the Farm and the Veterinary School over a lengthy period. The scheme before you has been designed to ensure that practical veterinary teaching can be delivered in modern facilities of a proper standard. It will also provide the infrastructure to support a profitable farming operation. Particular care has been taken to minimize the scope and capital cost of the facilities provided.

Bringing together all of the Farm staff onto one site at Park Farm will bring operating efficiencies, and the provision of a modern grain store, which meets current assurance standards, will enable significant improvements to be made to the profitability of the Farm's arable operations.

I commend this Report to the Regent House.

Dr D. R. de LACEY (Faculty of Divinity) (read by the Senior Proctor, Mr J. A. TREVITHICK): Mr Deputy Vice-Chancellor, the University Farm has long been a feature of Girton's landscape, since much of

it is within Girton Parish. Girton residents will be sorry to see it go. There is in Girton a nature reserve in an ancient ridge-and-furrow meadow, and the village owes the University Farmer a debt of gratitude for his help in the management of this meadow. I would not wish this move to be approved without an acknowledgement of the benefit Girton has received from its presence.
