AUDIT COMMITTEE

Assurance on the Colleges use of HEFCE funding

The Committee has approved a protocol for reporting satisfaction, or otherwise, with the use of funds transferred by the University for educational purposes to the Colleges. Assurance is retrospective.

The exercise compares the College Fee Transfer from the University with the Education income and costs, as disclosed in each College's audited accounts.

A College's endowment income might be restricted for educational purposes and exceed the gap between a College's expenditure on undergraduate education and the amount it receives from the College Fee Transfer. Therefore *total* expenditure made from restricted funds is also noted.

The exercise shows the "headroom" for each College, and invites further investigation if headroom is limited.

Attached: a schedule based on the <u>2013</u> Colleges' accounts including the <u>total</u> expenditure supported from restricted endowment income (restricted not necessarily for educational purposes).

The information provides assurance that College Fee Transfers are properly applied for educational purposes.

University of Cambridge Audit Committee

Assurance on Colleges' use of funds

Note of a meeting on Wednesday 30 April 2014 in the Registrary's office.

Present: Chair of the Audit Committee, Mr John Shakeshaft

Chair of the Colleges' Committee, Professor David Yates Chair of the Bursars' Committee, Ms Deborah Lowther

Registrary and Secretary of the Audit Committee, Dr Jonathan Nicholls

In attendance: Assistant Secretary of the Audit Committee, Dr Clara East

- The meeting was part of an established mechanism to provide assurance that the
 autonomous Colleges applied HEFCE funding that passed to them via the College Fee for
 appropriate educational purposes and that due attention was paid to efficiency and valuefor-money considerations.
- 2. The mechanism included an annual exercise by the University's Director of Finance to compare Colleges' total fee income and restricted funds income with expenditure on education. The assessment of the Colleges' 2012-13 audited accounts had been completed and, at the next meeting of the Audit Committee on 8 May 2014, the Director of Finance would report satisfaction with the application of funds transferred. The table compiled by the Director of Finance had been circulated to the attendees for information. Additional assurance in this regard was provided via this annual meeting, which provided a forum to explore matters and exchange information, particularly in the area of value for money.
- 3. With regard to the table of accounts Mr Shakeshaft explained that the column showing Total Restricted Fund costs was needed to give a fuller picture of the spend on education by Colleges (given that the College fee alone would not cover all costs). Three Colleges had a net surplus. It was noted that spend was not always smooth, for example graduate scholarships may only be fundable every three years, and this was one reason for such surplus. Mr Shakeshaft commented that the Audit Committee would not view the annual figures in isolation but look for patterns across years. Ms Lowther queried how Restricted Funds that had not been spent on education were taken into account and would raise this with the Director of Finance. It was acknowledged that the table of figures would need a different representation once the new fee regime was fully in place.
- 3. Ms Lowther took attendees through the draft value for money report, which was to be considered by the Bursars' Committee on 22 May. A final report would be provided in due course but no major changes were expected. It was noted that the format of the report would change in future years on the establishment of a Colleges' Value for Money Committee (which would take over authorship of the report). Over the course of discussion the following points were made:

- Key Performance Indicators were now embedded as an annual exercise and a lot of information was available, for example about College staffing in different areas. The benchmarking of costs was useful for internal College discussions;
- Conference Cambridge, a joint marketing vehicle for the Colleges, was working well by saving Colleges the front-end work of marketing and giving rise to more opportunities for events than Colleges may otherwise have received;
- the Office of Intercollegiate Services (OIS) was currently under review and succession planning under consideration. Whilst succession of the OIS's leadership was a risk for the University it was not considered a high risk;
- new procurement agents had been appointed for energy and food purchasing leading to a more sophisticated approach to purchasing in both areas;
- a new insurance broking arrangement had been signed up to by most Colleges resulting in significant savings; self-insurance was also to be investigated and UMAL, the specialist Higher and Further Education mutual organisation, was mentioned as a useful reference;
- the Colleges had undertaken a review of services and charges by local law firms; it was noted that the periodic tender by all or some Colleges for legal services should ensure, even within the limited market within Cambridge, optimal rates including some free advisory services typical of such procurements elsewhere (including from the University's periodic tenders for external legal services);
- the Colleges' Investment Sub-Committee continued its work to raise awareness amongst Bursars of investment opportunities and strategies;
- centralised student services now included the new Sports Centre;
- more workshops had taken place between College Bursars and University officers specifically to identify further joint ventures to achieve better value for money.
- 4. On the subject of the workshops to promote greater collaboration between the Colleges and University, the Registrary noted that these had been very constructive and that participants would continue to seek sensible areas on which to join forces. One such area might be IT, once the University Information Service was fully established. The increase in the level, experience and professionalism of collaboration between the Colleges and University was commended.
- 5. The University's Audit Committee would receive a copy of this meeting note and the draft Colleges' Value for Money report at its meeting in May.
