

Lectures proposed by the Faculty Board of Clinical Veterinary Medicine

The lectures and courses of practical instruction in Anatomy and Physiology (including the lectures in Veterinary Physiology) prescribed for students who intend to take, or seek exemption from, the Qualifying Examination in Veterinary Anatomy and in Veterinary Physiology, and the lectures and courses in Pathology and Pharmacology, will be found in the lists of lectures, announced for these subjects in the Medical and Veterinary Sciences Tripos by the Faculty Board of Biology (p. 158). For particulars of fees prescribed for these courses see p. 2.

The following lectures, which also include practical instruction and demonstrations, constitute courses prescribed by the Faculty Board of Clinical Veterinary Medicine for the Final Veterinary Examinations, Parts I, II and III. The fee payable for attendance at these courses is the University Composition Fee.

These courses will be given at the Veterinary School unless otherwise stated, and will begin on the Monday which next precedes the first day of Full Term. Locations and timings for the lectures, practicals, seminars etc. in various courses can be obtained on request from the Tutorial Assistant, Department of Clinical Veterinary Medicine, Madingley Road (Telephone (7)66365)

MICHAELMAS 2000

LENT 2001

EASTER 2001

FINAL VETERINARY EXAMINATION, PART I

MISS A. E. SCHWABE, DR C. J. C. PHILLIPS, DR D. R. WISE AND
PROF. D. M. BROOM

Animal Health and Welfare. Lectures

DR R. M. CONNAN AND DR S. S. LLOYD
Parasitology I. Lectures and/or Practical

MR M. E. HERRTAGE, MRS E. A. BAINES AND
MISS P. CHAPLIN

Radiography. Lectures

MR A. R. JEFFERIES

Food Hygiene (Introduction). Lecture

Rotations. M. W. 9-1

Projects. Lectures, Seminars and Practical

PROF. W. F. BLAKEMORE, MR A. R. JEFFERIES AND
DR R. HURLEY

Pathology. Seminars

DR P. M. TAYLOR, DR R. J. EVANS AND A. N. OTHER
Respiratory Systems. Lectures and/or Practical

MR M. E. HERRTAGE, MR A. R. JEFFERIES AND DR R. J. EVANS
Dermatology. Lectures and/or Practical

DR H. J. FIELDS AND OTHERS

Biology of Infectious Disease in Domestic Species.

Lectures and/or Practical

DR H. J. FIELDS AND OTHERS

Biology of Infectious Disease in Domestic
Species. Lectures and/or Practical

DR R. M. CONNAN AND DR S. S. LLOYD
Parasitology II. Lectures and/or Practical

The same continued

The same continued

Presentation

DR P. G. G. JACKSON AND DR P. D. COCKCROFT
Cattle. Lectures and/or Practical

DR R. J. EVANS AND MRS D. SINCLAIR
Clinical Pharmacology and Toxicology.
Lectures

DR M. F. HEATH

Clinical Biochemistry Introduction.

Lectures

DR P. D. COCKCROFT

Pig Husbandry and Medicine. Lectures

DR D. R. WISE

Poultry. Lectures and/or Practical

MR J. ROBINSON AND OTHERS

Veterinary Dentistry. Lectures

DR D. R. WISE, DR C. J. C. PHILLIPS AND
MRS P. J. WATSON

Nutrition. Lectures

DR S. S. LLOYD, DR P. G. G. JACKSON,

MISS A. E. SCHWABE AND

DR P. D. COCKCROFT

Sheep and Goats. Lectures and/or practical

MISS A. E. SCHWABE, DR C. J. C. PHILLIPS,
DR D. R. WISE AND PROF. D. M. BROOM

Animal Health and Welfare. Lectures

MR A. R. JEFFERIES, DR R. J. EVANS,
DR M. F. HEATH, DR M. A. HOLMES AND
DR J. D. SLATER

Alimentary System and Associated Glands.
Lectures and/or Practical

PROF. W. R. ALLEN, DR P. D. COCKCROFT,
DR P. G. G. JACKSON, MISS A. E. SCHWABE
AND DR M. S. BOYLE

Animal Breeding. Lectures and/or
Seminars

The same continued

DR R. A. S. WHITE, DR D. M. ANDERSON AND
A. N. OTHER

Principles of Surgery. Lectures

DR R. M. CONNAN, DR S. S. LLOYD AND
DR M. A. HOLMES

Evidence-Based Medicine. Lectures
and/or Practical

PROF. A. M. JOHNSTON, A. N. OTHER AND
MR A. R. JEFFERIES

Food Hygiene. Lectures and/or Practical

MR F. DARLING

Laboratory Animal Medicine. Lectures
and Practical

DR P. G. G. JACKSON, DR R. M. CONNAN AND
OTHERS

Pig Medicine. Lectures and Practical

MR M. E. HERRTAGE, DR M. F. HEATH,

DR R. J. EVANS, MR A. R. JEFFERIES,

MRS P. J. WATSON AND

MR M. STIDWORTHY

Urology. Lectures and/or Practical

PART III, SECTIONS (I) AND (II)

There are few formal lectures for the Final Veterinary Examination Part III. Course work in the final year consists mainly of practical instruction in Case Responsibility, in Clinical Groups and in Demonstrations. Students also study an elective subject during the latter part of Lent Term, the Easter Vacation and beginning of Easter Term.
