19 Jan. PROFESSOR JULIE CRUIKSHANK, University of British Columbia

The discovery of gold in the Klondike: oral histories from the Yukon Territory, Canada

Popular written histories of the Klondike gold rush emphasize adventures of prospectors who struggled north to the gold fields in 1898. Oral histories told by Aboriginal women who knew Keish (or Skookum Jim), Tagish man credited with the official 'discovery' of gold, provide conflicting interpretations. The illustrated talk addresses how culturally specific stories told in different voices and transmitted through different forms of telling can shape the ways we understand events passed down as history.

2 Feb. REAR ADMIRAL JOHN MYRES, CB, Hydrographer of the Navy, 1990–94, and Secretary of the UK Polar Medal Assessment Committee
Arctic and Polar medals - rewards for the brave, the foolhardy and the shivering!

In 1857 the first medal for British Arctic exploration was instituted covering the period from 1818 to 1855. Some 2500 men were eligible for it – but only about 1500 received it. In 1876 a Second Arctic Medal was awarded – to just 155 men. Since 1904, the Polar Medal has been awarded for exploration and research in both the Arctic and Antarctic, and over 1200 men and less than half a dozen women have received it. The talk will describe the origins of these medals and offer some random thoughts on their award over nearly two centuries.

16 Feb. DR NEIL ARNOLD, Scott Polar Research Institute

Evaluating the sensitivity of glaciers to climate change

This talk will give a non-technical review of the methods used by environmental scientists to evaluate the sensitivity of glaciers to climate change, with an emphasis on the role of mathematical modelling of key interactions between ice and the wider environment. This will be based around the speaker's own work in the high Alps and the Arctic.

2 Mar. SUSIE GRANT and SARAH ROBINSON, Scott Polar Research Institute

Young explorers in Svalbard and the Antarctic: the BSES expeditions

BSES Expeditions (formerly the British Schools Exploring Society) has run expeditions for young people every year since 1932, combining scientific fieldwork with exploration and adventure. The speakers took part as Young Explorers in a six-week expedition to Svalbard in 1996, and then as assistant leaders on the BSES Millennium Expedition to Antarctica, the Falklands and Patagonia in 1999–2000. This illustrated talk describes their experiences, including exploration of previously unvisited areas, mountaineering, wildlife encounters and scientific fieldwork.

IT/COMPUTER TRAINING COURSES

The Computing Service offers the following IT training courses which are free for current students and staff of the University. Most courses start at 14.15 and end by 17.00 and are held at the New Museums Site, but there are exceptions so please check times and venues when registering. Some are entirely practical, while others take the form of a lecture and demonstration followed by a practical session, and a few consist of a lecture only. 'Self-teach' modules are also available (see below). A printed timetable giving times and locations, and a booklet containing course descriptions may be obtained from Computing Service Reception; this information is also provided on the World Wide Web (www.cam.ac.uk/cs/courses/). The next programme will be in the Easter Term, starting in late

Additions and Corrections

April 2002. Note that the Computing Service also provides documentation on many topics in the form of handouts, information sheets and leaflets (see Web page www.cam.ac.uk/cs/docs/ or request a copy of handout H9 *Publications Available*).

It is essential to register, preferably by completing the Web form at www.cam.ac.uk/cs/courses/ Only if this is not possible should one of the alternative methods of booking be used: email to course-admin@ucs.cam.ac.uk, tel. (3)34662 or in person at Computing Service Reception, New Museums Site, Pembroke Street. Bookings will be confirmed automatically and reminders sent only if a valid email address is supplied. A standby system is used for oversubscribed courses: priority will be given to those who have booked in advance and arrive in good time. If unable to attend for any reason, please cancel bookings giving as much notice as possible so that someone else may take the place, and to avoid waste of resources such as excess copies of printed notes.

It should be noted that, unless otherwise indicated, all courses assume basic computing skills; only those marked "novice friendly" are suitable for those with no previous experience.

* indicates that some prior knowledge or experience of the topic is required, in addition to basic computing skills, as detailed in the individual course descriptions. In all cases this may be acquired by attending one or more of the introductory courses.

Self-Teach Computer Training Courses

In addition to the programme of formal courses, a selection of self-paced training material is provided for loan, or in some cases purchase, from Computing Service Reception, New Museums Site, Pembroke Street. Modules on offer at the time of going to press are listed below, but new ones are added from time to time. As well as duplicating topics covered on the taught courses, for the benefit of those who cannot attend or who prefer this method of learning, they cover other subjects and also more advanced levels. It is advisable to ring (3)34600 to check availability beforehand. A deposit of £50 is required for courses which are borrowed; this usually takes the form of a cheque which is returned when the material is brought back on time and in good, fully usable condition. In most cases it is necessary for the modules to be used on a computer with the correct version of the software installed; in some but not all cases Computing Service facilities may be used. As with most commercial software, there are license restrictions which forbid copying of courseware, unless expressly permitted. For information about a particular module, see the description either on the World Wide Web (www.cam.ac.uk/cs/courses/) or the booklet which is available on request from Reception.

† Can only be used on a computer with the correct (or compatible) version of the software.

Long Vacation Courses 2002

Chemical Engineering Tripos

A course of directed reading in the Long Vacation will be provided for prospective candidates for Chemical Engineering, Part IIA who, having obtained honours in a subject other than Chemical Engineering Part I, are seeking leave of the Chemical Engineering Syndicate to read Chemical Engineering Part IIA.

Computer Science Tripos, Part II (General)

Students intending to read for the Computer Science Tripos, Part II (General) from October 2002 are required to attend a course in Computer Programming in Java given by Dr F. H. King. The course will begin at 9 a.m. in the *Hopkinson Lecture Room on the New Museums Site*, on Monday, 15 July, and will end on Friday, 26 July. The course consists of lectures, demonstrations, and practical work.

Computing Service. DR SAYER's notice.

The Computing Service intends to run several IT training courses including the use of the Internet facilities including the World Wide Web and electronic mail, personal computers, the Unix system, and popular word processing, spreadsheet and database applications in July. Note that the most popular courses are held at this time of year. In addition to the programme of formal courses, self-paced training material is provided for a loan, or in some cases purchase. Notices will be circulated as usual to all departments, colleges and libraries. Further information may be obtained from Computing Service Reception, New Museums Site, Pembroke Street, telephone 34662, email: course-admin@ucs.cam.ac.uk, or World Wide Web page <http://www.cam.ac.uk/CS/Courses/>.

Divinity

The Faculty Board of Divinity propose the following classes:

- 1) *Elementary Greek*. Intensive course for one week beginning 23 September 2002. Intending students should apply in writing to Dr J. N. B. CARLETON-PAGET at the Faculty of Divinity, West Road by 13 September 2001.
- 3) *Elementary Hebrew*. The course will begin on Monday 2 July 2001, in the Faculty of Divinity. Intending students should apply in writing to Dr A. A. MACINTOSH at the Faculty of Divinity, West Road, not later than 15 June 2002.

Geography

There will be no formal instruction in the Long Vacation, but the Department will be open to students who wish to use the library.

Land Economy

Students intending to take Part IB, and Part II of the Land Economy Tripos without having taken Part IA or Part IB respectively should note the following:

- i) Students who have not taken Part I of the Economics Tripos must undertake reading in Economics prior to starting the Land Economy Tripos. It is essential that students should obtain details on this from the Department of Land Economy before the end of the Easter Term. There will be no formal instruction in the Long Vacation.
- ii) Students who have not taken Part IA of the Law Tripos should attend the Legal System and Legal Method and Law lectures in the Long Vacation course given by the Law Faculty. A timetable of this course will be available nearer the beginning of the course from the Law Faculty.

Law

The Faculty of Law will give a course in the Long Vacation for candidates intending to take Part IB of the Law Tripos in the Easter Term 2003 and, who have not previously read law. The course will run from 3 October–5 October 2002. Full details will be provided nearer the time.

Music

There will be no formal instruction, but lecturers in residence will give advice to undergraduates who require it.

Natural Sciences Tripos, Part IB

Ecology. FACULTY BOARD OF BIOLOGY notice.

Students intending to read Part IB Ecology will be expected to attend a two-week field course during the Long Vacation. The course will be held at Juniper Hall, Dorking, from Friday 22 June to Friday 6 July 2002. Students will be required to make a small contribution towards the costs. Students who do not attend will be at a disadvantage. Any student needing advice in this connection should consult his or her Director of Studies and, if necessary, Dr A. BALMFORD, Department of Zoology, or Dr E. TANNER, Department of Plant Sciences. Further details of the arrangements will be available in the Departments of Plant Sciences, Genetics and Zoology.

Geological Sciences A and B

There will be a field course in Geological Field Methods at Sedburgh, from 25 June to 5 July 2002 led by Dr WOODCOCK. This course is primarily for students intending to take either or both the Part IB Geological Sciences course in 2002.

Natural Sciences Part II

Biochemistry. Professor BLUNDELL's notice

There will be no formal Long Vacation courses for those reading Part II Biochemistry in 2002-2003. All students on this course will be given advice on reading and will be expected to attend formal teaching, which will commence on Monday, 1 October 2002.

Chemistry

There will be no formal Long Vacation course.

Genetics

There will be no formal Long Vacation course. Students with little background biology will be asked to do some directed reading.

Geological Sciences. Professor SALJE's notice

The following courses will be given:

- (1) A course of lectures, practical work and field work designed to be suitable for all students taking Part II (A) and Part II (B) in 2002–2003 (except those taking Mineral Sciences). The field course will take place on 22 June to 7 July in Skye.
- (2) Mineral Sciences course. A course of lectures and laboratory work which is essential preparation for those students offering a Mineral Sciences project in 2002–2003. Candidates should see Dr M. T. DOVE before the end of the Full Easter Term to obtain further details.

Materials Science and Metallurgy. Professor WINDLE's notice.

There will be no formal course during the long Vacation for undergraduates preparing to take Part IIA, Part IIB or Part III during the academical year 2002–2003. Instead undergraduates are strongly encouraged to obtain industrial or similar experience during the Long Vacation.

Students expecting to take three year Part IIA In 2002–2003 will be expected to submit to the Examiners a report carried out on approved work performed during the Long Vacation in 2001. The topic of the report may be *either* a project carried out in a research, development or other approved establishment in industry or elsewhere, *or* a project carried out in the Department.

Students taking Part III in 2002–2003 will be expected to submit to the Examiners a report carried out on approved work performed *either* during the Long Vacation in 2001 *or* during the Long Vacation in 2002. The topic of the report may be *either* a project carried out in a research, development or other approved establishment in industry or elsewhere, *or* a project carried out in a Department.

Advice and assistance in finding Industrial or similar experience will be available through the Department. For those Part IIA students and Part III students unable to obtain a suitable industry placement, arrangements will be made for them to carry out a project in the Department during the Long Vacation period of residence, starting at 9.30a.m. on Monday 9 July 2002.

Pathology. Professor WYLLIE's Notice.

Candidates who intend to read Pathology for Part II of the Natural Sciences Tripos 2001–2002 should meet in the *Department of Pathology* on Monday, 9 July 2002 at 10 a.m. On that day arrangements will be made for candidates to meet Professor Wyllie, the organisers of the course options and supervisors of the research projects. Students are advised to begin work during the Long Vacation period of residence.

The course is organised on an option system. Students will take two options out of four (Cellular and Genetic Pathology, Immunology, Microbial and Parasitic Disease, Virology). Detailed information on these options is available in the Department of Pathology.

Zoology. Professor BURROW's notice

A Field Course will be provided for students who intend to take Part II Zoology in 2002–2003. The course will begin on Saturday, 24 August, and end on Wednesday, 4 September 2002, and will be held on the Norfolk coast. Students will be required to make a small contribution towards the costs.

Those students who wish to take Part II Zoology, but want to do other biological work during the Long Vacation, instead of the Field Course, should discuss their plans with the Part II Advisor, Dr R. S. K. BARNES.

Oriental Studies

University teachers who are in residence will be glad to see, and offer guidance to, any students of Oriental Studies who may also be in residence. Students who would like advice may write to the Secretary, Dr J. E. MONTGOMERY, Faculty of Oriental Studies, Sidgwick Avenue (telephone: Cambridge 335127).
