

## SUMMARY

Please note that last year's figures are shown in *italics* in brackets.

### **Table 1 Number and percentage of applications and acceptances by type of school/college and gender**

- The proportion of men accepted has risen to 51% (*50%*)  
For Home/EU applications the number of acceptances by school/college type are:  
Maintained      55% (*56%*)  
Independent     45% (*44%*)

### **Table 3 Number and percentage of applications and acceptances by GCE A level grade scores and gender**

- Of those accepted 91% (*91%*) achieved three grades As (or more) counting only their best three A levels excluding General Studies.

### **Table 7 Number and percentage of Home applications and acceptances by ethnic origin and percentage success rate**

- The proportion of those accepted who declare they have an ethnic minority background or other is 13% (*13%*). In addition 6% (*5%*) of those accepted chose not to declare their ethnic origin.

### **Table 8 Number and percentage of applications and acceptances by disability and percentage success rate**

- The proportion of those accepted who declare they have disability is 3% (*3%*).

### **Notes for information**

- The tables and charts show the total number of applications and acceptances for October 2003. They exclude 381 (*355*) applicants through UCAS who did not submit a Cambridge Application Form (CAF) in addition to the UCAS form.
- Acceptance figures include only those applicants who received an unconditional firm (UF) offer of a place. It excludes those made conditional offers who were unsuccessful at confirmation or who subsequently declined their place after becoming UF. Table 5 gives the total number of conditional offers made.
- In many places percentages have been rounded to the nearest whole number, so totals do not always add up to 100.
