The College of application in the data above is defined as the applicant's first choice College (or, in the case of an Open applicant, the College to which the applicant was assigned) regardless of subsequent transfers through the pools.

The figures include only Home applicants who applied from a school or college in the UK and show the percentage of applications and acceptances by College from the maintained sector, including FE institutions. Last year's percentages have been recalculated to include only Home applications and acceptances, as the previous version also included non-Home students at UK schools.
