**Election to the Board of Scrutiny**

13 June 2018

The Vice-Chancellor gives notice that he has received the following nomination, in accordance with Statute A VII 3, for election to the Board of Scrutiny in class (c)(ii) (a member of the Regent House), and that it has been certified to him that the candidate has consented to be nominated:

Dr GEMMA LUCY BURGESS, *N*, nominated by Dr C. Y. Barlow, *N*, and Dr R. V. L. Doubleday, *CHR*.

No other candidates having been nominated, the Vice-Chancellor declares that Dr Burgess is elected to serve from 1 October 2018 until 30 September 2019.

## Discipline Committee

The Discipline Committee met on 20 April 2018 to consider a charge brought by the University Advocate against a graduate of the University. The Committee consisted of: Dr M. W. Gehring, *HH* (Chair); Dr P. J. Watson, *EM*; Ms Nicky Blanning, *JN*; Mr R. M. Nijk, *W*; and Mr T. Mayer, *Q*. Ms Parker acted as Secretary to the Committee, with Ms d'Ambrumenil assisting. On the application of the student, the Committee consisted of two members of the Regent House and two persons *in statu pupillari*, and sat in private.

The student was charged with one count contrary to Regulation 6 of the General Regulations for Discipline (2012), namely use of unfair means in a Ph.D. thesis as part of an examination for the Doctor of Philosophy. The student submitted a guilty plea. The University Advocate outlined the circumstances of the case and the student presented their case. The student's Representative and College Senior Tutor each also made a statement.

The Committee considered all the information provided. The Committee noted the seniority of the student and degree in question in addition to the lack of personal mitigation or other explanation. It also considered the remorse shown by the student, positive character references, and the nature of the plagiarized extracts which in part summarized other authors.

Taking all factors into account, the Committee determined, in accordance with Statute D II 3, that: the Ph.D. Degree be suspended for a period of six months, only to be reinstated following: resubmission and successful examination of a corrected thesis; the writing of letters of apology to the author of the plagiarized work and the Examiners; and evidence of steps taken to correct other published works.

## REPORTS

### Report of the General Board on the establishment and re-establishment of certain Professorships

The GENERAL BOARD begs leave to report to the University as follows:

1. The General Board recommends the establishment of a DeepMind Professorship of Machine Learning, Health Foundation Professorship of Healthcare Improvement Studies, Professorship of Theoretical Physics, and the re-establishment of a RAND Professorship of Health Services Research, as set out in paragraphs 2, 3, 4, and 5 below. The funding arrangements for these Professorships, as set out in paragraphs 2, 3 and 5, were approved by circulation by the Resource Management Committee on 15 May 2018, whilst the Professorship in paragraph 4 was approved by the RMC Chair on behalf of the Committee on 21 May 2018.

2. The Board has accepted an academic case from the Council of the School of Technology for the establishment of a DeepMind Professorship of Machine Learning, from 1 January 2019, in the Department of Computer Science and Technology. If Recommendation 1 is approved, an endowment fund will be established with a £3.5m benefaction from DeepMind to support the full costs of the Professorship. The Board has agreed that election to the Professorship should be made by an *ad hoc* Board of Electors and that the candidature should be open to all persons whose work falls within the general field of Machine Learning, including neural techniques.

3. The Board has accepted an academic case from the Council of the School of Clinical Medicine for the establishment, for a single tenure, of a Health Foundation Professorship of Healthcare Improvement Studies, from 1 August 2018, in the Department of Public Health and Primary Care. The proposed holder of the Health Foundation Professorship of Healthcare Improvement Studies would be Professor Mary Dixon-Woods, the current RAND Professor of Health Services Research.

Professor Dixon-Woods and both the funders have given their consent for this change. The Health Foundation has agreed to fund the Professorship in full for ten years, and has indicated that it would be open to making further funding available, after that period expires, to support the Professorship held by Professor Dixon-Woods until she reaches the retiring age. The School of Clinical Medicine has confirmed that, in the event that the Health Foundation declines to renew the funding, the School will underwrite the costs of the Professorship to the retiring age, in which event the title of the Professorship will be amended to the Professorship of Healthcare Improvement Studies.

4. The Board has accepted a case from the Council of the School of Physical Sciences for the establishment, for a single tenure, of a Professorship of Theoretical Physics, from 1 July 2018, in the Department of Applied Mathematics and Theoretical Physics. The proposed holder of the Professorship of Theoretical Physics would be Professor Ben Simons, the current Herchel Smith Professor of Physics in the Department of Physics. Professor Simons has been awarded the Royal Society E. P. Abraham Research Professorship, which is to be held in the Department of Applied Mathematics and Theoretical Physics following resignation from his Professorship in the Department of Physics. The proposed Professorship of Theoretical Physics will be held in abeyance until such time as funding for the Royal Society E. P. Abraham Research Professorship ceases, from which point Professor Simons will hold the Professorship of Theoretical Physics until the retiring age. Both the Departments concerned and Professor Simons have agreed to these arrangements. The full costs of the new Professorship will be met from existing resources available to the Department of Applied Mathematics and Theoretical Physics.

5. If the establishment of the Health Foundation Professorship of Healthcare Improvement Studies as described in paragraph 3 above is approved, the School of Clinical Medicine wishes to re-establish the Professorship that Professor Dixon-Woods currently holds. The Board has accepted an academic case from the Council of the School of Clinical Medicine for the re-establishment, for a single tenure, of a RAND Professorship of Health Services Research, from the 1 August 2018, in the Department of Public Health and Primary Care. If Recommendations III and V are approved, the full cost of the re-established Professorship will be shared between RAND Europe and

the School of Clinical Medicine from within its recurrent Chest Allocation. The RAND Professor of Health Services Research will also be appointed Co-Director of the Cambridge Centre for Health Services Research. Should the funding from RAND Europe lapse, the School of Clinical Medicine has agreed to assume the full cost of the Professorship, the title of which would be amended to the Professorship of Health Services Research. The Board has agreed that election to the Professorship should be made by an *ad hoc* Board of Electors and that the candidature should be open to all persons whose work falls within the general field of the title of the office.

6. The General Board recommends:

- I. That a DeepMind Professorship of Machine Learning be established in the University from 1 January 2019, placed in the Schedule to Special Ordinance C (vii) 1, and assigned to the Department of Computer Science and Technology.
- II. If Recommendation I is approved, that regulations for a DeepMind Fund for Machine Learning, as set out in the Annex to this Report, be approved.
- III. That a Health Foundation Professorship of Healthcare Improvement Studies be established for a single tenure in the University from 1 August 2018 for Professor Mary Dixon-Woods, placed in the Schedule to Special Ordinance C (vii) 1, and assigned to the Department of Public Health and Primary Care.
- IV. That a Professorship of Theoretical Physics be established for a single tenure in the University from 1 July 2018 for Professor Ben Simons, placed in the Schedule to Special Ordinance C (vii) 1, and assigned to the Department of Applied Mathematics and Theoretical Physics.
- V. If Recommendation III is approved, that a RAND Professorship of Health Services Research be established for a single tenure in the University from 1 August 2018, placed in the Schedule to Special Ordinance C (vii) 1, and assigned to the Department of Public Health and Primary Care.

#### ANNEX

##### DEEPMIND FUND FOR MACHINE LEARNING

The benefaction received from DeepMind, together with such other sums as may be received or applied for the same purpose, shall form an endowment fund called the DeepMind Fund for Machine Learning to advance research in the field of Machine Learning by supporting a DeepMind Professorship of Machine Learning.

2. The Managers shall be responsible for the administration of the Fund and the application of its income and shall comprise the Head of the School of Technology, who shall be Chair, the Head of the Department of Computer Science and Technology, and one member appointed by the Faculty Board of Computer Science and Technology for such period as the Board shall determine.

3. Subject to Regulation 4, the income of the Fund shall be applied towards the payment of the stipend, national insurance, pension contributions, and associated indirect costs of the DeepMind Professorship of Machine Learning payable by the University.

4. Any unexpended income in any financial year, including income accrued during a vacancy in the Professorship, may, at the discretion of the Managers:

- (a) with the approval of the Faculty Board of Computer Science and Technology, be applied to support the work of the Professor in such manner as may be recommended by the Managers;
- (b) with the approval of the Faculty Board of Computer Science and Technology, be applied to support graduate students undertaking research in the field of machine learning in the University in such manner as may be recommended by the Managers; and/or
- (c) be carried forward for use as income in accordance with Regulation 3 in any one or more subsequent financial years.

## Report of the General Board on Senior Academic Promotions

The GENERAL BOARD begs leave to report to the University as follows:

1. The senior academic promotions exercise in respect of promotions to take effect from 1 October 2018 has been completed. The General Board, at its meeting on 6 June 2018, considered recommendations from the Main Senior Academic Promotions Committee in respect of promotion to personal Professorships, Readerships, and Senior Lectureships. With the recommendations the Board received an extensive report, which provided the Board with an account of the procedure followed for the evaluation and comparison of the evidence for all applicants. The Board was able to see how recommendations had been arrived at so that, without repeating the entire exercise, it could either approve the recommendations or, if it so wished, consider the basis on which any of the recommendations had been made.

2. The contents of the report were as follows:

- minutes of the Main Committee and Sub-Committees;
- summary lists of Faculty Promotions Committee and Sub-Committee evaluations and bandings, indicating adjustments and any special or non-standard aspects of applications;
- summary tables giving names of applicants in priority order by Sub-Committee for each of the senior academic offices;
- funding and statistical information;
- equal opportunity report on all applications received;
- feedback statements.

8. The General Board recommends:

- I. That, *with effect from 1 October 2018*, **Professorships** be established for each of the following named persons for one tenure, placed in the Schedule to Special Ordinance C (vii) 1, and assigned to the Faculty, Department, or Institution named in each case, as follows:

The establishment of these Readerships is proposed on condition that in each case where the person currently holds a permanently established office, that office should be placed in abeyance during the tenure of the Professorship
