**Discussion on Tuesday, 3 March 2020**

The Vice-Chancellor invites those qualified under the regulations for Discussions (*Statutes and Ordinances*, p. 105) to attend a Discussion in the Senate-House on Tuesday, 3 March 2020 at 2 p.m., for the discussion of:

1. Topic of Concern to the University: Enabling accessible, safe cycling and sustainable transport (*Reporter*, 6575, 2019–20, p. 306).
2. Report of the Council, dated 19 February 2020, on the partial demolition of the Atlas Building, West Cambridge, and the erection of modular storage and staff welfare facilities for the University Safety Office (p. 350).
3. Report of the General Board, dated 18 February 2020, on the establishment of a Professorship (p. 351).

In addition to those entitled to attend under the regulations, the discussion of item 1 will be open to all students and employees of the University Group and the Colleges.

Further information on Discussions, including details on format and attendance, is provided at <https://www.governance.cam.ac.uk/governance/decision-making/discussions/>.

**Congregation of the Regent House on 21 February 2020**

*17 February 2020*

The Vice-Chancellor gives notice under the provisions of Special Ordinance A (i) 2 that the Congregation called for Saturday, 22 February 2020 at 2 p.m. will instead commence at 2 p.m. on Friday, 21 February, for the submission of Graces and the Supplicat for degrees. It is expected that the Congregation will then be adjourned. Access to the Congregation for members of the Regent House who wish to be present will be via Trinity Lane and the Old Schools, as the Yard is currently closed. The Supplicat List will be posted beforehand outside the Old Schools as well as in the Old Schools Arcade as usual. Members of the Regent House should be prepared to show their University Card or other form of photographic ID in order to gain entry and are asked to be present by 1.50 p.m.

**Joint Report of the Council and the General Board on the introduction of a final degree classification: Notice in response to Discussion remarks**

The Council has received the remarks made at the Discussion on 4 February 2020 (*Reporter*, 6577, 2019–20, p. 343) concerning the above Report (*Reporter*, 6574, 2019–20, p. 300). The Council has consulted with the General Board in preparing this response.

Professor Evans is right to suggest that the University should be asking itself questions about its practices in light of the Office for Students (OfS) conditions of registration, and it continues to do so and to propose changes where necessary. Indeed, it is these questions, self-reflections and considerations that give rise to the risk identified in the Report in relation to the OfS condition B3 and reinforce the case for a cumulative degree classification.

The OfS Regulatory Framework elaborates on its B3 requirement that ‘providers must deliver successful outcomes for all students, which are recognised and valued by employers and/or enable further study’, specifying that there are a range of ‘student outcomes indicators’, including ‘degree and other outcomes’. This reinforces the idea that the University must signal a clear outcome for the whole degree, and move beyond the current year-by-year outcome given.

There is no question of Final Examiners exercising academic judgement on the student’s performance in a subject outside of their expertise. In the case of the Management Studies Tripos, students taking the Tripos in their third year will be classed using the 0:30:70 weighting scheme. The marks and class from the second year will already have been decided by the relevant Tripos Examiners and will not be subject to change. Students that change Tripos will be classed using the relevant Part II scheme, and if their new Tripos uses the 0:30:70 scheme (or a similar variation), their second year marks and class will not be amended by the Final Examiners.

Professor Evans suggests that the ‘piling up of performances’ by cumulative classification could come close to introducing modular degrees. This proposal is not an attempt to introduce modular degrees. As Dr Holmes notes, the aim is to make Cambridge degree results clear to all. The Careers Service supports the changes because there is evidence from employers that the University’s degree results are not understood.

Professor Evans should be reassured that any Department or Faculty wishing to formalise Part II as the defining degree classification will be able to do so. The consultation showed that, whilst some favoured the 0:0:100 scheme, many Departments believed a 0:30:70 scheme would be more suited to their disciplines and others had particular needs that did not fit either the 0:0:100 or the 0:30:70 schemes. As Dr Holmes notes, the General Board has listened to those comments and offered two main models and the option to apply to the General Board’s Education Committee for the use of a different scheme.

The Council is submitting a Grace (Grace 2, p. 352) for the approval of the recommendations of this Report.

## Statute approved (age limit on membership of the Regent House and other related matters)

17 February 2020

The Registry has received notice from the Clerk of the Privy Council that Her Majesty the Queen, at a Council held on 12 February 2020, was pleased to approve amendments to Statute A III 11, which were submitted under the Common Seal of the University in accordance with Grace 1 of 20 March 2019.

These changes remove the age limit on Regent House membership and transfer provisions concerning the membership to Special Ordinance. The Council has agreed that these changes will come into effect from the promulgation of the Roll on 6 November 2020.

## REPORTS

### **Report of the Council on the partial demolition of the Atlas Building, West Cambridge, and the erection of modular storage and staff welfare facilities for the University Safety Office**

The COUNCIL begs leave to report to the University as follows:

1. In this Report the Council is seeking approval in principle for new modular-built storage, office and welfare facilities for the University Safety Office, to be enabled by the partial demolition of an existing facility on the University's West Cambridge site.

2. Radioactive material from across the University is presently stored in a single location in part of the Atlas Building on the West Cambridge site. The condition of the wing of the building used for both storage and staff office and welfare facilities is in a poor state of repair. The need to provide improved facilities has been considered for some time and the preferred option for this project has been selected on the basis of a feasibility study and location options appraisal.

3. The scheme requires a single-storey section of the Atlas Building to be demolished, which has a gross internal area of 254 sq.m. (2,733 sq.ft.). This demolition provides the space to erect a single-storey modular structure. The proposed site ensures continuity of the current location and related support services for the medium term; the modular design would enable relocation of the facilities in the longer term.

4. The new building work shown in the plan below would be constructed in a single phase and would provide a total additional gross internal area of 125 sq.m. (1,345 sq.ft.). The estimated cost of the total project is £650k with funding from the University's Minor Works Fund. No significant incremental running costs are anticipated for the new facilities due to the low level of mechanical and electrical requirements.

5. It is hoped to submit a planning application in February 2020 in order to let a contract so that work can begin in May 2020.

6. Drawings of the proposed scheme are displayed for the information of the University in the Old Schools Arcade and are reproduced online at <https://www.prao.admin.cam.ac.uk/capital-planning/plans-and-drawings>.

7. The current scheme is part of a programme of work to enable closure of the Atlas Building. This programme includes the recently completed geological collections building for the Department and Museum of Earth Sciences (approved by Grace 5 of 19 July 2017), and the project to refurbish the Bunker on Brooklands Avenue as a collections storage facility (approved by Grace 2 of 13 February 2019).

8. The Council recommends:

- I. That approval be given for the partial demolition of the Atlas Building and the erection of the new modular storage and staff welfare facilities for the University Safety Office as described in this Report.
- II. That the Director of Estates be authorised to apply for detailed planning approval in due course.

**Location plan: Atlas building****Report of the General Board on the establishment of a Professorship**

The GENERAL BOARD begs leave to report to the University as follows:

1. Following a referral from the Senior Academic Promotions 2019 Appeals Committee, the Vice-Chancellor's Committee decided to put forward Dr Abigail Brundin for promotion to a Professorship. The General Board agreed, at its meeting on 12 February 2020, to recommend the establishment of a Professorship for

Dr Brundin, to be backdated to 1 October 2019. After consulting with Dr Brundin, the Board has agreed that the title of the Professorship should be the Professorship of Italian. The Readership currently held by Dr Brundin would be held in abeyance during the tenure of the Professorship.

2. The General Board recommends:

- I. That, with effect from 1 October 2019, a Professorship of Italian be established for Dr Abigail Sarah Brundin, *CTH*, for one tenure, placed in the Schedule to Special Ordinance C (vii) 1, and assigned to the Faculty of Modern and Medieval Languages and Linguistics.
