GENERAL REGULATIONS FOR AWARDS

- Restriction of candidature: date of application. **1.** Competition for any University Studentship, Scholarship, Exhibition, Prize, Medal, or other such award shall be restricted to candidates who are actual members of the University unless there is clear evidence of a contrary intention in the regulations or document governing the award. Whenever by any regulation for any award it is required that an application or an entry be submitted to the Registry or to some other person by a certain date that regulation shall be interpreted as requiring that the application or entry shall be sent so as to reach the Registry or other person not later than that date.
- Honourable mention. **2.** The Examiners are empowered to give honourable mention, in such form as they may think fit, to students who reach the standard of merit required for the award of an emolument though they fail to gain it in consequence of the superior merit of others; but honourable mention may not be given to a student who fails to reach such a standard.
- 3.** If a University Studentship, Scholarship, Exhibition, Prize, Medal, or similar emolument is awarded, or honourable mention given, to a candidate who is a member of a House of Residence recognized by the University, the name of the House of Residence, if it is given in the candidate's entry for the emolument, shall be given in the announcement of the award in addition to the name of his or her College.
- Standing and eligibility. **4.** (a) For the purpose of these regulations an Affiliated Student shall be deemed to have kept by residence the three terms next preceding the term in which he or she first resides within the Precincts of the University, and to have been matriculated in the first of those terms.
(b) A person who possesses the status of Master of Arts or Bachelor of Arts shall not at any time be eligible for any University Prize, Scholarship, Studentship, or similar emolument for which only undergraduates are eligible. For the purposes of any regulation respecting the standing of candidates for other emoluments the term in which a person received the status of Master of Arts shall be counted as his or her twentieth term, and the term in which a person received the status of Bachelor of Arts shall be counted as his or her tenth term.

5. A candidate elected to any University emolument of which the tenure would normally begin at or shortly after the date of election may be permitted by the Council, for any reason which they may consider adequate, to postpone the commencement of tenure for such period as the Council may approve.

6. Subject to the decision of the Council in case of doubt, if payment of an instalment of the emolument of a Studentship, Scholarship, or similar award is conditional upon fulfilment of requirements which can normally be waived by Grace, and if the holder, by reason of deferment of commencement of tenure approved by the Council, has not satisfied those requirements during the whole, but has satisfied them during a part, of the period to which an instalment appertains, he or she shall receive a proportional part of the emolument.

Studentships and Scholarships

7. If the awarders of any University Studentship, Scholarship, or similar award learn that the holder has been elected to a Fellowship of a College, or has been awarded any other emolument for the support of research, or has been appointed to any office or employment in the University, they shall consider the case and may at their discretion reduce or withhold the emolument of the award.

Restriction of tenure.

8. Subject to the provisions of any special regulations, the awarders of any University Studentship, Scholarship, or similar award may require that the whole or part of the emolument shall be used for one or more of the following purposes:

Reduction or withholding of emoluments.

- (a) the purchase of books or recordings;
- (b) the purchase of equipment;
- (c) travel abroad.

9. If payment of an instalment of the emolument of a Studentship or Scholarship is conditional upon the awarders' approval of a report from the holder, the awarders may delegate such approval to one or more of their number. Any such delegation shall be communicated by the awarders to the Treasurer, or to any other authority by whom payment is to be made. Where it is provided that such a report must be submitted before a prescribed time payment may nevertheless be authorized by the Council if the report is submitted after that time but is approved by the awarders.

Continuation of payments.

Prizes and Medals

10. Candidates shall be required to state, generally in a preface to their submitted work, and specifically in notes, the sources from which their information is taken, the extent to which they have availed themselves of the work of others, or have received help and advice from a Director of Studies, Supervisor, or other person, and the portions of the submitted work which are claimed as original.

The payment of the emolument shall be withheld until a copy of the exercise has been so deposited.

Except as otherwise provided in the regulations for a particular fund, any part of the income of a fund not expended in any year shall be accumulated by investment or otherwise, and any such accumulation shall, at the discretion of the Finance Committee of the Council after they have considered any recommendations that the Managers or other body responsible for the administration of the fund may wish to make, either be applied as income in subsequent years or be added to the capital of the fund.
